W. P. Davidson High School
Honors Precalculus
Fall 2019

Dear Parents:

Your student has been assigned to my precalculus class this semester and I look forward to getting to know you and your student. Precalculus is a rigorous course that prepares students for AP and college calculus.

Today in class your student was given a Syllabus that provides details about how our class will operate. Please take a moment to read the Syllabus and feel free to contact me with any questions or concerns. The best way to contact me is via e-mail though the school's website (wpdavidson.org, then "School Staff") or at jparker1@mcpss.com. Phone messages left at the school office will be returned as soon as possible. Throughout the semester, please do not hesitate to contact me with any questions or concerns about your student.

I encourage each of you to obtain your PIN from the school office so you can access your student's grades on the Internet. I make liberal use of I-Now's commenting abilities on individual student grades and assignments. These comments are not visible on the mobile version or app, so please access I-Now on a desktop for the full picture of your child's performance.

As indicated on the Syllabus, student grades will be calculated as follows:

20% - quarter exam – This is a cumulative exam covering all material taught.

56% - tests – This includes end of chapter tests and some quizzes.

24% - assignments – This category includes class work, homework and some quizzes.

Most assignments will be graded for accuracy and completion. Grades for completion of Before Class Notes will be included in this category.

Davidson will host an Open House September 18, 2019 from 5 to 7 pm. Most of the evening is devoted to meeting teachers and visiting classrooms. I hope to meet each of you that night, if not before.

Please complete and return the sheet attached to this letter. Do not hesitate to contact me and I look forward to meeting you. I remain,

Very Truly Yours,

A handwritten signature in black ink that reads "J Parker". The signature is written in a cursive, flowing style.
