

Bylaws of the Board

Legislative Program

The Board of Education, as an agent of the state, must operate within the bounds of the state and federal law affecting public education. If the Board is to meet its responsibilities to the residents and students of the community, it must work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal or modification of existing laws that impede this cause. To this end:

1. The Board may develop an annual legislative program.
2. When appropriate, the Board will work for the achievement of common legislative objectives through associations and other concerned groups.
3. The Board may also seek both direct and indirect representation of its position on pending legislation with appropriate state and federal legislators and legislative committees.
