

Meal options in the event of an unexpected school closure.

As of 2/14/2021 we are not closed. This is preparation of an unexpected closure.

RCSS will be offering additional ways for students to obtain meals during temporary school closures. These changes will take place with any closures that occur 2/15, or after.

I am sharing this form with families now to prevent a delay in receiving meal deliveries once a closure occurs. The opt-in form will only need to be completed once for each student and will be used for all future school closures.

- School Nutrition will coordinate with Transportation who will develop routes based on the opt-in form.
- Meal deliveries (this will start during the second week of the school closure).
- Meal deliveries during unanticipated school closures are only available to *current bus riders* at this time.
- The flyers will also be posted on the RCSS homepage with other important School Nutrition links. To direct families to this information, go to www.randolph.k12.nc.us > click on the picture of fruits and vegetables > click on the "Opt-In Form for Meal Deliveries during Unanticipated School Closure."

RCSS is hopeful that these meal options will increase meal access to your families. Thank you for your support!

E Johnson
