

PowerMyLearning.org is a **FREE** platform to **personalize instruction** and inspire **student-driven learning**. Designed for K-12 students, educators, and parents, it offers a flexible way to implement blended learning.

Meet student needs by designing and assigning **playlists** of digital content. Choose from thousands of academic games, videos, tools, and simulations that have been carefully curated by our team of educators and tagged by subject, grade, Common Core standard, and other criteria. Mix in your own self-created content or online tools that are part of an existing school curriculum. Combine this content with open-response **formative assessment** questions to build more rigorous playlists.

PowerMyLearning provides everything you need to drive student success, all in one trusted place.

A groundbreaking learning innovation

- Personalize learning by sequencing digital content into playlists that meet student needs
- Increase productivity by searching activities by subject, grade, standard, publisher, and more
- Integrate the Common Core by browsing across domains/strands, clusters, and standards to find activities that help develop content mastery
- Include formative assessments to gauge student understanding and encourage deeper learning
- Keep kids engaged year-round with student motivation features like Wizmo World

Che New York Eimes "4 stars (out of 4) - This site is a fabulous portal to some of the best free educational games, activities, simulations, and videos on the web for kids."

"What caught my attention was simply how excited and effusive everyone was, including the students, about PowerMyLearning."

Bring the power of this free platform to your school, district, or organization. Email PowerMyLearning@cfy.org

- Mix and match digital content into playlists to meet student needs
- Use a pre-created Certified Playlist tied to the Common Core or build your own
- Choose from thousands of curated learning activities from 900+ publishers
- Browse across Common Core domains/ strands, clusters, and standards
- Embed your own content that's selfcreated or from an existing curriculum

- Add formative assessments that require students to synthesize and apply information from multiple sources
- Have students upload screenshots to support their assessment responses
- Create classes and assign playlists to individual students, groups of students, or the entire class
- Pull reports to track activity usage and review submitted assignments
