

# HONDO ISD

## STUDENT USERNAMES AND PASSWORDS

Students in all grades will use the following standard pattern for their usernames.

- First Name, Last Initial, last 2 digits of grad year
  - For Example: Laura Elizabeth Graff
    - Username: laurag12
  - The ONLY exceptions are duplicate usernames, in which the student's middle initial is included.
    - For example: lauraeg12
- Passwords will be as follows:
  - Last five digits of the student's **OTHER ID** (found in Family Access) + .abc
  - For example: **12345.abc**

### How do I access my student's Other ID?

- Parents can find the Other ID number in the student profile in Family Access. **See image below.**
  - You may also find this [video tutorial](#) helpful.
- Teachers can find the students' **Student IDs** in their gradebooks under the student profile.

### Can my student change their password?

- The grades **K-8** will not be able to change their passwords. If a student feels like his or her password is compromised, they should contact their teacher.
- **HS** students will be allowed to change their passwords. Please be careful and make sure that you complete the password recovery options in Classlink to avoid delays in resetting your passwords.
