

# Ham Produce Co.

Ham Produce Co. began with a simple idea, that growing quality produce starts with sowing quality seeds. Thirty-five years later, that same idea has produced some of the best sweet potato and cabbage the Snow Hill, North Carolina area has to offer. Ham Produce Co. began and still is a family-owned company. It's why they're not only known in that area for growing great tasting sweet potatoes, but growing roots in their community.

Over time, Ham Produce Co. has proven to be at the top of the class growing and harvesting produce—and they have the certifications to prove it, including HACCP for identifying, correcting and preventing food production and distribution hazards; Global GAP for governing rigorous standards for the quality of food products grown, harvested, and distributed by farms; and a CMI certificate that ensures they use only the best methods to seed, grow, and harvest their produce.

Ham Produce Co. has been active in the community for years and is doing their part in sponsoring numerous charities and events across the state of North Carolina.
