

2015-16

Taylor CountyAdministrative Evaluation System Template

Rule 6A-5.030 Form AEST-2015

Effective Date: _____ 2015

Taylor County School District
Paul Dyal, Superintendent
2015-16

Table of Contents

- 1. Performance of Students
- 2. Instructional Leadership
- 3. Other Indicators of Performance
- 4. Summative Evaluation Score
- 5. Additional Requirements
- 6. District Evaluation Procedures
- 7. District Self-Monitoring
- 8. Appendix A Checklist for Approval

1. Performance of Students

All school administrators will be included in the evaluation system using the student learning growth measure as 33% of their overall evaluation including administrators with less than three years of student growth data. For measuring student learning growth, the statewide assessment results will be included as 33 % of the student learning growth portion using the school wide results.

The testing instruments identified in the student performance chart will be used by the Taylor County School District to calculate student growth. VAM scores will be based on the most recent three year period including the current year and the two years immediately preceding the current year when available.

The School-Based Administrator's performance score, the score will be given a rating of one of the following: Highly Effective, Effective, Needs Improvement, or Unsatisfactory. Once this determination has been made, the following chart will be used to assign an exact point value to the performance score:

VAM Score Conversion	Categorical Score	= Points
4	Highly Effective	4
3	Effective	3
2	Needs	2
2	Improvement/Developing	2
1	Unsatisfactory	1

The District-Determined Student Performance Measure shall be the Value-Added Score for the school of the individual leader's school.

For all school administrators, student performance data for at least three years, including the current year and the two years immediately preceding the current year will be used when available. If less than the three most recent years of data are available, those years for which data are available will be used. If more than three years of student performance data are used, those specific years will be specified.

2. Instructional Leadership

The leadership practice portion of the instructional evaluation will be calculated as 57% of the overall evaluation. The supervisor and employee will collect data regarding each domain. This data collection will reflect current status and the progress made by the employee toward mastery of each domain.

This evaluation system is based on contemporary research and meta-analysis by Dr. Douglas Reeves, Dr. John Hattie, Dr. Robert Marzano, and other research findings that identify school leadership strategies or behaviors that, done correctly and in appropriate circumstances, have a positive probability of improving student learning and faculty proficiency on instructional strategies that positively impact student learning.

Evaluation of school leasers is based on observation and evidence about certain leadership behaviors and the impact of a leader's behavior on others.

For all school administrators, a crosswalk from the district's evaluation framework to the Principal Leadership Standards

Alignment to the Florida Principal Leadership Standards (FPLS)			
Domain/Standard	Evaluation Indicators		
Domain 1: Student Achievement:			
 Student Learning Results: Effective school leaders achieve results on the school's student learning goals 			
 a. The school's learning goals are based on the state's adopted student academic standards and the district's adopted curricula; and, 	1.1, 1.2, 1.3		
 Student learning results are evidenced by the student performance and growth on statewide assessments; district-determined assessments that are implemented by the district under Section 1008.22, F.S.; international assessments; and other indicators of student success adopted by the district and state. 	1.4		
 Student Learning As a Priority: Effective school leaders demonstrate that student learning is their top priority through leadership actions the organization focused on student success. 	at build and support a learning		
a. Enables faculty and staff to work as a system focused on student learning;	2.1		
b. Maintains a school climate that supports student engagement in learning;	2.2		
c. Generates high expectations for learning growth by all students; and,	2.3		
 d. Engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school. 	2.4		
Domain 2: Instructional Leadership			
3. Instructional Plan Implementation: Effective school leaders work collaboratively to develop and implement an instructional framework that aligns curricular instructional practices, student learning needs and assessments.	ulum and state standards, effective		
 a. Implements the Florida Educator Accomplished Practices as described in Rule 6A-5.065, F.A.C., through a common language of instruction; 	3.1		
b. Engages in data analysis for instructional planning and improvement;	3.3		
c. Communicates the relationships among academic standards, effective instruction, and student performance;	3.3		
 d. Implements the district's adopted curricula and state's adopted academic standards in a manner that is rigorous and culturally relevant to the students and school; and, 	3.2		

e. Ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula. 4. Faculty Development: Effective school leaders recruit, retain and develop an effective and diverse faculty and staff. a. Generates a focus on student and professional learning in the school that is clearly linked to the system-wide strategic objectives and the school improvement plan; b. Evaluates, monitors, and provides timely feedback to faculty on the effectiveness of instruction; c. Employs a faculty with the instructional proficiencies needed for the school population served; 4.1	
Effective school leaders recruit, retain and develop an effective and diverse faculty and staff. a. Generates a focus on student and professional learning in the school that is clearly linked to the system-wide strategic objectives and the school improvement plan; b. Evaluates, monitors, and provides timely feedback to faculty on the effectiveness of instruction; 4.2	
strategic objectives and the school improvement plan; b. Evaluates, monitors, and provides timely feedback to faculty on the effectiveness of instruction; 4.2	
c. Employs a faculty with the instructional proficiencies needed for the school population served; 4.1	
d. Identifies faculty instructional proficiency needs, including standards-based content, research-based 4.6	
pedagogy, data analysis for instructional planning and improvement, and the use of instructional technology; e. Implements professional learning that enables faculty to deliver culturally relevant and differentiated instruction; and, 4.5	
f. Provides resources and time and engages faculty in effective individual and collaborative professional learning throughout the school year. 4.5	
5. Learning Environment:	
Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.	
a. Maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy;	
b. Recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning; 5.3	
c. Promotes school and classroom practices that validate and value similarities and differences among students; 5.3	
d. Provides recurring monitoring and feedback on the quality of the learning environment; 5.1	
e. Initiates and supports continuous improvement processes focused on the students' opportunities for success and well-being; and,	
f. Engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps. 5.4	
Domain 3: Organizational Leadership	
6. Decision Making:	
Effective school leaders employ and monitor a decision-making process that is based on vision, mission and improvement priorities using facts and dat a. Gives priority attention to decisions that impact the quality of student learning and teacher proficiency; 6.1	a.
b. Uses critical thinking and problem solving techniques to define problems and identify solutions; c. Evaluates decisions for effectiveness, equity, intended and actual outcome; implements follow-up actions; 6.2	
and revises as needed;	
d. Empowers others and distributes leadership when appropriate; and,	
e. Uses effective technology integration to enhance decision making and efficiency throughout the school. 6.5	
7. Leadership Development: Effective school leaders actively cultivate, support, and develop other leaders within the organization.	
a. Identifies and cultivates potential and emerging leaders; 7.1	
b. Provides evidence of delegation and trust in subordinate leaders; 7.2	
c. Plans for succession management in key positions; 7.3	
d. Promotes teacher-leadership functions focused on instructional proficiency and student learning; and, 7.1	
e. Develops sustainable and supportive relationships between school leaders, parents, community, higher education and business leaders. 7.4	
8. School Management: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal and effective learning environment.	al,
a. Organizes time, tasks and projects effectively with clear objectives and coherent plans; 8.1	
b. Establishes appropriate deadlines for him/herself and the entire organization; 8.1	
c. Manages schedules, delegates, and allocates resources to promote collegial efforts in school improvement and faculty development; and,	
d. Is fiscally responsible and maximizes the impact of fiscal resources on instructional priorities. 8.2	-

9. Communication: Effective school leaders practice two-way communications and use appropriate oral, written, and electronic com to accomplish school and system goals by building and maintaining relationships with students, faculty, page 1.	
a. Actively listens to and learns from students, staff, parents, and community stakeholders;	9.1
b. Recognizes individuals for effective performance;	9.4
c. Communicates student expectations and performance information to students, parents, and community;	9.3
 d. Maintains high visibility at school and in the community and regularly engages stakeholders in the work of the school; 	9.3
 e. Creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important school issues. 	9.1
f. Utilizes appropriate technologies for communication and collaboration; and,	9.3
g. Ensures faculty receives timely information about student learning requirements, academic standards, and all other local state and federal administrative requirements and decisions.	9.2
Domain 4: Professional and Ethical Behavior	
10. Professional and Ethical Behaviors:	
Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices in educations and professional behaviors consistent with quality practices and professional behaviors consistent with quality practices and professional behaviors are professional behaviors.	ation and as a community leader.
 a. Adheres to the Code of Ethics and the Principles of Professional Conduct for the Education Profession in Florida, pursuant to Rules 6A-10.080 and 6A-10.081, F.A.C.; 	10.4
 b. Demonstrates resiliency by staying focused on the school vision and reacting constructively to the barriers to success that include disagreement and dissent with leadership; 	10.1
 c. Demonstrates a commitment to the success of all students, identifying barriers and their impact on the well- being of the school, families, and local community; 	10.3
 d. Engages in professional learning that improves professional practice in alignment with the needs of the school system; 	10.2
e. Demonstrates willingness to admit error and learn from it; and,	10.1
f. Demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.	10.2

Step 1: Orientation: The orientation step can occur at the start of a new work year, at the start of a new school year, or at the start of assignment (or new assignment) as a principal. The depth and detail of orientation may vary based on prior training and whether changes in evaluation model have occurred, but an annual orientation or re-fresher orientation should occur. The orientation step should include:

- District provided orientation and training on the Florida Principal Leadership Standards (FPLS), Student Success Act, applicable State Board of Education rules, Race To The Top (RTTT) requirements, and district specific expectations that are subject to the evaluation system.
- All leaders and evaluators should have access to the content and processes that are subject to the evaluation system. All leaders and evaluators should have access to the same information and expectations. This may be provided by the leader's review of district evaluation documents, online modules, mentor sessions, or face-to-face training where awareness of district processes and expectations are identified.
- At the orientation step, each school leader is expected to engage in personal reflection on the connection between his/her practice and the FPLS and the indicators in the district evaluation system. This is a "what do I know and what do I need to know" selfcheck aligned with the FPLS and the district evaluation system indicators.

Step 2: Pre-evaluation Planning: After orientation processes, the leader and evaluator prepare for a formal conference to address evaluation processes and expectations. Two things occur:

• Leader's self-assessment from the orientation step moves to more specific identification of improvement priorities. These may be student achievement priorities or leadership

practice priorities. The leader gathers any data or evidence that supports an issue as an improvement priority. This may include School Improvement Plan (SIP), student achievement data, prior faculty evaluations, and evidence of systemic processes that need work.

• The evaluator articulates a perspective on strengths and growth needs for the leader and for student achievement issues at the school.

Step 3: Initial Meeting between evaluatee and evaluator: A meeting on "expectations" held between leader and supervisor to address the following:

- Evaluation processes are reviewed and questions answered.
- Perceptions (of both) from Pre-evaluation Planning are shared.
- Domain, Proficiency Areas, Indicators from evaluation system that will be focus issues are identified and discussed.
- Student growth measures that are of concern are discussed.
- Relationship of evaluation indicators to the SIP and district-supported initiatives are discussed.
- Such a meeting is typically face-to-face but may also be via tele-conference or phone. (Meeting issues can be clarified via texts and emails as appropriate.)
- Proposed targets for <u>Deliberate Practice</u> (additional metric) are discussed and determined, or a timeframe for selection of Deliberate Practice targets are set. While a separate meeting or exchange of information may be implemented to complete the Deliberate Practice targets, they should be discussed at the Step 3 Conference given their importance to the leader's growth and the summative evaluation.

Step 4: Monitoring, Data Collection, and Application to Practice: Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator accumulates data and evidence on leader's actions or impact of leader's
 actions during the routine conduct of work. Such data and evidence may come from site
 visits, be provided by the leader, from formal or informal observations, or from
 evidence, artifacts or input provided by others. The accumulated information is analyzed
 in the context of the evaluation system indicators.
- As evidence and observations are obtained that generate <u>specific and actionable</u> <u>feedback</u>, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.
- These monitoring actions occur before and continue after the mid-year Progress Check (step 5).

Step 5: Mid-year Progress Review between evaluatee and evaluator: At a mid-year point, a progress review is conducted.

- Actions and impacts of actions taken on priorities identified in Step 3 Initial Meeting are reviewed.
- Any indicators which the evaluator has identified for a specific status update are reviewed. (The leader is given notice of these indicators prior to the Progress Check, as the feedback expected is more specific than that for the general indicator overview.)
- The leader is prepared to provide a general overview of actions/processes that apply to all of the domains and proficiency areas and may include any of the indicators in the district system. Any indicator that the evaluator or the leader wishes to address should be included.
- Strengths and progress are recognized.
- Priority growth needs are reviewed.
- Where there is no evidence related to an indicator and no interim judgment of proficiency can be provided, a plan of action must be made:
 - If the evaluator decides that the absence of evidence indicates unsatisfactory proficiency because actions or impacts of action should be evident if leader was proficient, the leader is provided notice that the indicator(s) will be addressed in a follow-up meeting.
 - The absence of evidence is explained by lack of opportunity for the evaluator to note anything relevant, and leader is asked to provide follow-up data on the indicator prior to the year-end conference.
 - The lack of evidence on one indicator is balanced by substantial evidence on other indicators in the same proficiency area. No follow-up is required until evidence supporting a Needs Improvement (NI) or Unsatisfactory (U) rating emerges.
- Any actions or inactions which might result in an unsatisfactory rating on a domain or proficiency area if not improved are communicated.
- Any indicators for which there is insufficient evidence to rate proficiency at this stage, but which will be a priority for feedback in remainder of the year, are noted.
- FSLA Feedback and Protocol Form is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Notes or memorandums may be attached to the forms as appropriate to reflect what is communicated in the Progress Check.

Step 6: Prepare a consolidated performance assessment: The summative evaluation form is prepared by the evaluator and a performance rating assigned.

- Consider including relevant and appropriate evidence by any party entitled to provide input into the leader's evaluation.
- Review evidence on leader's proficiency on indicators.
- Use accumulated evidence and rating on indicators to rate each proficiency area.
- Consolidate the ratings on proficiency areas into domain ratings.
- Consolidate Domain ratings, using FSLA weights, to calculate a FSLA score.

Step 7: Year-end Meeting between evaluatee and evaluator: The year-end meeting addresses the FSLA score, the Deliberate Practice Score and Student Growth Measures.

- The FSLA score is explained.
- The leader's growth on the Deliberate Practice targets is reviewed and a Deliberate Practice Score assigned.
- The FSLA Score and Deliberate Practice Score are combined (as per weighting formula) to generate a Leadership Practice Score.
- If the Student Growth Measurement (SGM) score is known, inform the leader how the Leadership Practice Score and SGM Score combine to a summative performance level of Highly Effective, Effective, Needs Improvement, or Unsatisfactory.
- If SGM score is not known, inform leader of possible performance levels based on known Leadership Practice Score and various SGM outcomes.
- If recognitions or employment consequences are possible based on performance level, inform leader of district process moving forward.
- Review priority growth issues that should be considered at next year's step 2 and step 3
 processes.

Data Collection Instrument:

Domain 1 - Student Achievement

Narrative: Student achievement results in the student growth measures (SGM) segment of evaluation represent

Proficiency Area 1. <u>Student Learning Results</u>: Effective school leaders achieve results on the school's student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

student results on specific statewide or district assessments or end-of-course exams. The leadership practice segment of the evaluation, through the proficiency areas and indicators in this domain, focuses on <u>leadership behaviors</u> that influence the desired student results.

Narrative: This proficiency area focuses on the leader's knowledge and actions regarding academic standards, use of performance data, planning and goal setting related to targeted student results, and capacities to understand what results are being obtained. This proficiency area is aligned with Florida Principal Leadership Standard #1.

Indicator 1.1 - Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core Standards and Next Generation Sunshine State Standards).

Narrative: Standards-based instruction is an essential element in the state's plan of action for preparing Florida's students for success in a 21st century global economy. This indicator is focused on the leader's understanding of what students are to know and be able to do. School leaders need to know the academic standards teachers are to teach and students are to master.

Note: Every credit course has specific academic standards assigned to it. Common Core Standards and Next Generation Sunshine State Standards (NGSSS) assigned to each course are found at www.floridastandards.org.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

Other leadership evidence of proficiency on this Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank: [] Highly Effective [] Effective [] Needs Improvement [] Unsatisfactory **Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

Reflection Questions for Indicator 1.1

Highly Effective:	Effective:	Needs Improvement:	Unsatisfactory:
Do you routinely share examples of specific leadership, teaching, and curriculum strategies that are associated with improved student achievement on the Common Core Standards or NGSSS?	How do you support teachers' conversations about how they recognize student growth toward mastery of the standards assigned to their courses?	How do you monitor what happens in classrooms to insure that instruction and curriculum are aligned to academic standards?	Where do you find the standards that are required for the courses in your master schedule?

Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

Narrative: This indicator addresses the leader's proficiency in use of student and adult performance data to make instructional leadership decisions. What does test data and other sources of student performance data related to targeted academic goals say about what is needed? What does data about teacher proficiency or professional learning needs indicate needs to be done? The focus is what the leader does with data about student and adult performance to make instructional decisions that impact student achievement.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader can specifically document examples of decisions in teaching, assignment, curriculum, assessment, and intervention that have been made on the basis of data analysis.	The leader uses multiple data sources, including state, district, school, and classroom assessments, and systematically examines data at the subscale level to find strengths and challenges.	The leader is aware of state and district results and has discussed those results with staff, but has not linked specific decisions to the data.	The leader is unaware of or indifferent to the data about student and adult performance, or fails to use such data as a basis for making decisions.
The leader has coached school administrators in other schools to improve their data analysis skills and to inform instructional decision making.	The leader empowers teaching and administrative staff to determine priorities using data on student and adult performance. Data insights are regularly the subject of faculty meetings and professional development sessions.	Data about adult performance (e.g. evaluation feedback data, professional learning needs assessments) are seldom used to inform instructional leadership decisions.	
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:		Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:	
Data files and analyses on a wide range of student performance assessments are in routine use by the leader.		Teachers use performance decisions. Department and team meattention to student performance.	_

- Analyses of trends and patterns in student performance over time are reflected in presentations to faculty on instructional improvement needs.
- Analyses of trends and patterns in evaluation feedback on faculty proficiencies and professional learning needs are reflected in presentations to faculty on instructional improvement needs.
- Leader's agendas, memoranda, etc. reflect recurring attention to performance data and data analyses.
- Teacher leaders identify changes in practice within their teams or departments based on performance data analyses.
- Teacher leaders make presentations to colleagues on uses of performance data to modify instructional practices.
- Other impact evidence of proficiency on this indicator.

 Other leadership evidence indicator. 	,

The examples above are il	lustrative and do not	reflect an exclusive list of wha	at is expected):	

Reflection Questions for Indicator 1.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How do you aggregate data about teacher proficiencies on instructional practices to stimulate dialogue about what changes in instruction are needed in order to improve student performance?	How do you verify that all faculty have sufficient grasp of the significance of student performance data to formulate rational improvement plans?	By what methods do you enable faculty to participate in useful discussions about the relationship between student performance data and the instructional actions under the teachers' control?	How much of the discussions with district staff about student performance data are confusing to you and how do you correct that?

Indicator 1.3 – Planning and Goal Setting: The leader demonstrates planning and goal setting to improve student achievement.

Narrative: Knowing the standards and making use of performance data is expected to play a significant role in planning and goal setting. This indicator is focused on the leader's alignment of planning and goal setting with improvement of student achievement.

	Τ	_

Indicator 1.4 - Student Achievement Results: The leader demonstrates evidence of student improvement through student achievement results.

Narrative: Engagement with the standards, using data, making plans and setting goals are important. This indicator shifts focus to the leader's use of evidence of actual improvement to build support for continued effort and further improvement.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
A consistent record of improved student achievement exists on multiple indicators of student success. Student success occurs not only on the overall averages, but in each group of historically disadvantaged students. Explicit use of previous data indicates that the leader has focused on improving performance. In areas of previous success, the leader aggressively identifies new challenges, moving proficient performance to the exemplary level. Where new challenges emerge, the leader highlights the need, creates effective interventions, and reports improved results.	The leader reaches the required numbers, meeting performance goals for student achievement. Results on accomplished goals are used to maintain gains and stimulate future goal setting. The average of the student population improves, as does the achievement of each group of students who have previously been identified as needing improvement.	Accumulation and exhibition of student improvement results are inconsistent or untimely. Some evidence of improvement exists, but there is insufficient evidence of using such improvements to initiate changes in leadership, teaching, and curriculum that will create the improvements necessary to achieve student performance goals. The leader has taken some decisive actions to make some changes in time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement, but additional actions are needed to	Evidence of student improvement is not routinely gathered and used to promote further growth. Indifferent to the data about learning needs, the leader blames students, families, and external characteristics for insufficient progress. The leader does not believe that student achievement can improve. The leader has not taken decisive action to change time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement.

Leadership Evidence of profit may be seen in the leader's karrier examples of such but are not limited to the fol	ehaviors or actions. evidence may include,	generate improvements for all students. Reflection Questions for Indicator 1.4

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How do you share with other school leaders how to use student improvement results to raise expectations and improve future results?	How do you engage students in sharing examples of their growth with other students?	How do you engage faculty in routinely sharing examples of student improvement?	What processes should you employ to gather data on student improvements?

Proficiency Area 2. <u>Student Learning as a Priority</u>: Effective school leaders demonstrate that student learning is their top priority through effective leadership actions that build and support a learning organization focused on student success.

Narrative: This proficiency area is aligned with Florida Principal Leadership Standard #2. A learning organization has essential elements regarding the behavior of people in the organization. When all elements are present and interacting, productive systemic change is possible. This proficiency area is focused on the degree to which learning organization elements exist in the school and reflect the following priorities on student learning:

- Supports for personal mastery of each person's job focus on job aspects related to student learning
- Team learning among faculty is focused on student learning
- Processes for exploring and challenging mental models that hamper understanding and progress on student learning are in use
- A shared vision has student learning as a priority
- Systems thinking is employed to align various aspects of school life in ways that promote learning

Indicator 2.1 – Learning Organization: The leader enables faculty and staff to work as a system focused on student learning and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Narrative: Are the elements of a learning organization present among the adults in the school? Are the learning organization elements focused on student learning? Is the system in operation at the school engaging faculty in improving results for under-achieving subgroups? This indicator addresses the systemic processes that make gap reduction possible. Is the leader proficient in building capacity for change?

Note: Indicator 5.4 from Florida Principal Leadership Standard #5 addresses actual success in reducing achievement gaps.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The essential elements of a learning organization (i.e. personal mastery of	The leader's actions and supported processes enable the instructional and	The leader's actions reflect attention to building an organization where the	There is no or minimal evidence of proactive leadership that supports

competencies, team learning, examination of mental models, shared vision, and systemic thinking) are focused on improving student learning results. Positive trends are evident in closing learning performance gaps among all student subgroups within the school.

There is evidence that the interaction among the elements of the learning organization deepen the impact on student learning. The leader routinely shares with colleagues throughout the district the effective leadership practices learned from proficient implementation of the essential elements of a learning organization.

administrative workforce of the school to function as a learning organization with all faculty having recurring opportunities to participate in deepening personal mastery of competencies, team learning, examination of mental models, a shared vision, and systemic thinking. These fully operational capacities are focused on improving all students' learning and closing learning performance gaps among student subgroups within the school.

essential elements of a learning organization (i.e. personal mastery of competencies, team learning, examination of mental models, shared vision, and systemic thinking) are emerging, but processes that support each of the essential elements are not fully implemented, or are not yet consistently focused on student learning as the priority, or are not focused on closing learning performance gaps among student subgroups within the school.

emergence of a learning organization focused on student learning as the priority function of the organization.

Any works in progress on personal mastery of instructional competencies, team learning processes, examinations of mental models, a shared vision of outcomes sought, or systemic thinking about instructional practices are not aligned or are not organized in ways that impact student achievement gaps.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following: **Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Principal's support for team learning processes focused on student learning is evident throughout the school year.
- Principal's team learning processes are focused on student learning.
- Principal's meeting agendas reflect student learning topics routinely taking precedence over other issues as reflected by place on the agenda and time committed to the issues.
- School Improvement Plan reflects a systemic analysis of the actionable causes of gaps in student performance and contains goals that support systemic improvement.
- The principal supports through personal action, professional learning by self and faculty, exploration of mental models, team learning, shared vision, and systems thinking practices focused on improving student learning.
- Dialogues with faculty and staff on professional learning goes beyond learning what is needed for meeting basic expectations and is focused on learning that enhances the collective capacity to create improved outcomes for all students.

- Team learning practices are evident among the faculty and focused on performance gaps among student subgroups within the school.
- Professional learning actions by faculty address performance gaps among student subgroups within the school.
- Performance gaps among student subgroups within the school show improvement trends.
- Faculty, department, team, and cross-curricular meetings focus on student learning.
- Data Teams, Professional Learning Communities, and/or Lesson Study groups show evidence of recurring meetings and focus on student learning issues.
- Faculty and staff talk about being part of something larger than themselves, of being connected, of being generative of something truly important in students' lives.
- There is systemic evidence of celebrating student success with an emphasis on reflection on why success happened.
- Teacher or student questionnaire results address learning organization's essential elements.

Reflection Questions for Indicator 2.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
Has your leadership resulted in people continually expanding their capacity to create the results they truly desire? Is there evidence that new and expansive patterns of thinking are nurtured? Are the people who make up your school community continually learning to see the "big picture" (i.e. the systemic connections between practices and processes)?	Where the essential elements of a learning organization are in place and interacting, how do you monitor what you are creating collectively is focused on student learning needs and making a difference for all students?	What essential elements of a learning organization have supports in place and which need development? Understanding that systemic change does not occur unless all of the essential elements of the learning organization are in operation, interacting, and focused on student learning as their priority function, what gaps do you need to fill in your supporting processes and what leadership actions will enable all faculty and staff to get involved?	What happens in schools that are effective learning organizations that does not happen in this school? How can you initiate work toward a learning organization by developing effective collaborative work systems (e.g., Data Teams, Professional Learning Communities, Lesson Studies)?

Indicator 2.2 – School Climate: The leader maintains a school climate that supports student engagement in learning.

Narrative: "Climate" at a school is determined by how people treat one another and what is respected and what is not. School leaders who promote a school climate where learning is respected, effort is valued, improvement is recognized, and it is safe to acknowledge learning needs have provided students support for sustained engagement in learning.

Reflection Questions for Indicator 2.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
In what ways might you further extend your reach within the district to help others benefit from your knowledge and skill in establishing and maintaining a school climate that supports student engagement in learning?	What strategies have you considered that would ensure that the school's identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school? How could you share with your colleagues across the district the successes (or failures) of your efforts?	How might you structure a plan that establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thought and action of all staff and students?	What might be the importance of developing a shared vision, mission, values, beliefs, and goals to establish and maintain a school climate that supports student engagement in learning?

Indicator 2.3 – High Expectations: The leader generates high expectations for learning growth by all students.

Narrative: The leader who expects little from students and faculty will get less than they are capable of accomplishing. "Every child can learn" takes on new meaning when supported by faculty and school leader expectations that students can and will learn a lot...not just a minimum to get by. Expecting quality is a measure of respect.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader incorporates community members and other stakeholder groups into the establishment and support of high academic expectations. The leader benchmarks expectations to the performance of the state's, nation's, and world's highest performing schools.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Reflection Questions for Indicator 2.3

Reflection Questions			
Highly Effective	Effective	Needs Improvement	Unsatisfactory
What strategies have you considered using that would increase the professional knowledge opportunities for colleagues across the school district in the area of setting high academic expectations for students?	How might you incorporate community members and other stakeholder groups into the establishment and support of high academic expectations?	What are 2-3 key strategies you have thought about using that would increase your consistency in creating and supporting high academic expectations for every student?	What might be some strategies you could use to create or support high academic expectations of students?

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Narrative: Lots of talk about high expectations, goal setting, working hard, rigor, and getting results is important, but leaders need to know where students' actual performance levels are to be able to track real progress. Knowing annual test results is useful, but it is not enough. What does the leader do to know whether progress is being made or not and whether "mid-course" corrections are required?

Domain 2 - Instructional Leadership

Narrative: School leaders do many things. Domain 2 of the FSLA addresses a core of leader behaviors that impact the quality of essential elements for student learning growth. The skill sets and knowledge bases employed for this domain generate 40% of the FSLA Score. The success of the school leader in providing a quality instructional

<u>Proficiency Area 3. Instructional Plan Implementation</u>: Effective school leaders work collaboratively to develop and implement an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs, and assessments.

framework, appropriately focused faculty development, and a student oriented learning environment are essential to student achievement.

Narrative: Proficiency Area 3 is focused on Florida Principal Leadership Standard #3 (FPLS). Aligning the key issues identified in the indicators into an efficient system is the leader's responsibility. This area stresses the leader's proficiency at understanding the current reality of what faculty and students know and can do regarding priority practices and goals.

Indicator 3.1 – FEAPs: The leader aligns the school's instructional programs and practices with the Florida Educator Accomplished Practices (Rule 6A-5.065, F.A.C.) and models use of the Florida common language of instruction to guide faculty and staff implementation of the foundational principles and practices.

Narrative: Indicator 3.1 is focused on the school leader's understanding of the Florida Educator Accomplished Practices (FEAPs) and ability to use Florida's common language of instruction. To be effective participants in school, district and statewide communities of practice working collegially for high quality implementation of the FEAPs, educators at the school level must be able to communicate and organize their efforts using the terms and concepts in the FEAPs and the Florida common language of instruction. This indicator is about the school leader's proficiency in making that happen by using a core set of expectations (the FEAPs) and terminology (the common language) to guide and focus teacher discussions on instructional improvements. Florida's common language of instruction is used so that educators in Florida use the core terms in the same way and with a common understanding.

Note: The FEAPs, a FEAPs brochure, and Florida's common language may be explored at http://www.floridaschoolleaders.org.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The instructional program and practices are fully aligned with the FEAPs. Faculty and staff implementation of the FEAPs is consistently proficient and professional conversations among school leadership and faculty about instruction use the Florida common language of instruction and the terminology of the FEAPs. The leader's use of FEAPs and common language resources results in all educators at the school site having access to and making use of the FEAPs and common language. Teacher-leaders at the school use the FEAPs and common language.	The leader's use of FEAPs content and terms from the common language is a routine event and most instructional activities align with the FEAPs. Coordinated processes are underway that link progress on student learning growth with proficient FEAPs implementation. The leader's use of FEAPs and common language resources results in most faculty at the school site having access to and making use of the FEAPs and common language. The leader uses the common language to enable faculty to recognize connections between the FEAPs, the district's evaluation indicators, and contemporary research on effective instructional practice.	The leader demonstrates some use of the FEAPs and common language to focus faculty on instructional improvement, but is inconsistent in addressing the FEAPs. The leader's use of FEAPs and common language resources results in some faculty at the school site having access to and making use of the FEAPs and common language. There are gaps in alignment of ongoing instructional practices at the school site with the FEAPs. There is some correct use of terms in the common language but errors or omissions are evident.	There is no or minimal evidence that the principles and practices of the FEAPs are presented to the faculty as priority expectations. The leader does not give evidence of being conversant with the FEAPs or the common language. The leader's use of FEAPs and common language resources results in few faculty at the school site having access to and making use of the FEAPs and common language.
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:		Impact Evidence of leaders seen in the behaviors or act students, and/or communit such evidence may include, following:	ions of the faculty, staff, y. Illustrative examples of
 The leader's documents, agendas, memorandum, etc. make reference to the content of the FEAPs and make correct use of the common language. Reflection Questions for Indicator 3.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How are you able to provide specific feedback to teachers on improving proficiency in the FEAPs and/or common language?	How do you recognize practices reflected in the FEAPs and/or common language as you conduct teacher observations?	Do you review the FEAPs and/or common language resources frequently enough to be able to recall the main practices and principles contained in them?	Do you know where to find the text of the FEAPs and common language?

Indicator 3.2 – Standards-Based Instruction: The leader delivers an instructional program that implements the state's adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by:

- aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and
- communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Narrative: Florida's plan of action for educating our children for the 21st century is based on standards-based instruction. Course descriptions specify the standards that are to be learned in each course. All of the course content in courses for which students receive credit toward promotion/graduation is expected to be focused on the standards in the course description. This indicator addresses the leader's proficiency at making sure all students receive rigorous, culturally relevant standards-based instruction by aligning key practices with the state's academic standards (Common Core, NGSSS, Access Points). The leader does what is necessary to make sure faculty recognize and act on the cause and effect relationship between good instruction (i.e., research-based strategies, rigorous, culturally relevant,) on the "right stuff" (the state standards adapted based on data about student needs).

Note: Course descriptions and the standards for each course may be explored at www.floridastandards.org.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
Processes exist for all courses to ensure that what students are learning is aligned with state standards for the course. The leader has institutionalized quality control monitoring to ensure that instruction is aligned with the standards and is consistently delivered in a rigorous and culturally	Processes exist for most courses to ensure that what students are learning is aligned with state standards for the course. Instruction aligned with the standards is, in most courses, delivered in a rigorous and culturally relevant manner for all students.	Processes exist for some courses to ensure that what students are learning is aligned with state standards for the course. Instruction is aligned with the standards in some courses. Instruction is delivered in a rigorous manner in some courses.	There is limited or no evidence that the leader monitors the alignment of instruction with state standards, or the rigor and cultural relevance of instruction across the grades and subjects. The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in

Indicator 3.3 – Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state's adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubric to guide tracking progress toward student mastery.

Narrative: "Learning goals" is a high-effect size strategy that uses scales or progressive levels to monitor student growth on the way to mastery of a state academic standard. Learning goals typically take 2-9 weeks of student time to master so are more comprehensive than daily objectives. The essential issue is that the teacher creates "scales" or levels of progress toward mastery of the learning goal. Teacher and students use those scales to track progress toward mastery of the goal(s). This indicator addresses the leader's proficiency at monitoring and providing feedback on teacher and student use of priority learning goals with scales. The leader is expected to go beyond low levels of monitoring that address whether the teacher provides such goals and attends to the levels of student understanding and engagement with the learning goals. Do the students pursue those goals? Do they track their own progress? Is celebrations of success on learning goals focused on how success was achieved more than that is was obtained?

Note: Beginning in the 2012-13 school year, professional learning about learning goals and sample learning goals may be explored at www.floridastandards.org, <a href="https:/

support celebration of student success in accomplishing priority learning goals and such celebrations focus on how the success was obtained.

The leader routinely shares examples of effective learning goals that are associated with improved student achievement.

Other leaders credit this leader with sharing ideas, coaching, and providing technical assistance to implement successful use of leaning goals in standards-based instruction.

routine use in courses school wide.

Standards-based instruction is an evident priority in the school and student results on incremental measures of success, like progress on learning goals, are routinely monitored and acknowledged.

The formats or templates used to express learning goals and scales are adapted to support the complexity of the expectations and the learning needs of the students.

Clearly stated learning goals aligned to state or district initiatives in support of student reading skills are in use school wide.

Learning goals are posted/provided in some classes are not current, do not relate to the students current assignments and/or activities, or are not recognized by the students as priorities for their own effort.

Learning goals tend to be expressed at levels of text complexity not accessible by the targeted students and/or at levels of complexity too simplified to promote mastery of the associated standards.

Processes that enable students and teachers to track progress toward mastery of priority learning goals are not widely implemented throughout the school.

learning goals, where provided, are <u>not</u> aligned to state standards in the course description.

The leader engages in minimal to non-existent monitoring and feedback practices on the quality and timeliness of information provided to students on what they are expected to know and be able to do (i.e. no alignment of learning goals with state standards for the course).

There are minimal or no leadership practices to monitor faculty practices on tracking student progress on priority learning goals.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following: **Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Agendas, meeting minutes, and memoranda to the faculty make evident a focus on importance of learning goals with scales to engage students in focusing on what they are to understand and be able to do.
- The leader's practices on teacher observation and feedback routinely address learning goals and tracking student progress.
- The leader provides coaching or other assistance to teachers struggling with use of the learning goals strategy.
- Procedures are in place to monitor and promote faculty collegial discussion on the implementation levels of learning goals to promote alignment with the implementation level of the associated state standards.
- Leader's communications to students provide evidence of support of students making progress on learning goals.
- Progress monitoring of adult and student performance on targeted priority learning goals is documented, charted, and posted in high traffic areas of the school.

- Clearly stated learning goals accompanied by a scale or rubric that describes levels of performance relative to the learning goal are posted or easily assessable to students.
- Teams or departments meet regularly to discuss the quality of learning goals with scales being employed and adapt them based on student success rates.
- Teacher lesson plans provide evidence of the connection of planned activities and assignments to learning goals.
- Teacher documents prepared for parent information make clear the targeted learning goals for the students.
- Students are able to express their learning goals during walkthroughs or classroom observations.
- Students are able to explain the relationship between current activities and assignments and priory learning goals.
- Lesson study groups and other collegial learning teams routinely discuss learning goals and scales for progression

What specific strategies have you employed to measure improvements in teaching and innovations in use of learning goals and how can you use such measures as predictors of improved student achievement?	What system supports are in place to ensure that the best ideas and thinking on learning goals are shared with colleagues and are a priority of collegial professional learning?	To what extent do learning goals presented to the students reflect a clear relationship between the course standards and the assignments and activities students are given?	What have I done to deepen my understanding of the connection between the instructional strategies of learning goals and tracking student progress?

Indicator 3.4 – Curriculum Alignments: Systemic processes are implemented to ensure alignment of curriculum resources with state standards for the courses taught.

Narrative: Academic standards are determined at the state level and the curriculum used to enable students to master those standards is determined at the district and school level. Curriculum must be aligned with the standards if it is to support standards-based instruction. Curriculum resources may or may not be fully aligned with the standards assigned to a specific course. The learning needs of students in specific classes may require additional or adapted curriculum materials to address issues of rigor, cultural relevance, or support for needed learning goals. School leaders maintain processes to monitor the appropriateness and alignment of curriculum to standards and intervene to make adjustments as needed to enable students to access curriculum that supports the standards.

Note: Where gaps or misalignments are noted by the processes addressed in this indicator, the leader's actions relevant to Indicator 8.2 (Strategic Instructional Resourcing) should be addressed.

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What system is in place to ensure that your best ideas and thinking on using curriculum to enable students to master standards are shared with colleagues, particularly when there is evidence at your school of improved student achievement?	What specific school improvement strategies have you employed to measure improvements in teaching and innovations in curriculum that serve as predictors of improved student achievement?	How can you monitor whether the activities and assignments student get that involve use of curriculum resources are aligned with learning goals and standards?	Do you know which standards are addressed in your curriculum?

Indicator 3.5 – Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Narrative: How do we know what our students already know, what they need to know, and how they are doing as we move forward with instruction? The school leader needs "assessment literacy" to address these questions. Where indicator 1.2 addresses the leader's proficiency in use of student performance data, this indicator focuses on actions taken at the school site to generate interim assessment data and make sure faculty use formative assessment practices to monitor and adjust instruction. Assessment of student progress toward academic standards is an important aspect of tracking student progress. Leaders need to make use of data on interim and formative assessments to guide goal setting and progress monitoring. They need to provide teachers access to quality assessments and promote teacher use of formative assessments as a routine strategy. The leader needs on-going assessment data to inform a variety of decisions regarding such issues as resource allocations, student and teacher schedules, professional learning impacts, and adjustments in plans.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader uses a variety of creative ways to provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement. Formative assessments are part of the school culture and interim assessment data is routinely used to review and adapt plans and priorities.	The leader systematically seeks, synthesizes, and applies knowledge and skills of assessment literacy and data analysis. The leader routinely shares knowledge with staff to increase students' achievement. Formative assessment practices are employed routinely as part of the instructional program. The leader uses state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions. These specific and observable	The leader haphazardly applies rudimentary knowledge and skills of assessment literacy and is unsure of how to build knowledge and develop skills of assessment literacy and data analysis. The leader inconsistently shares knowledge with staff to increase student achievement. There is inconsistency in how assessment data are used to change schedules, instruction, curriculum, or leadership. There is rudimentary use of assessment data from state,	The leader has little knowledge and/or skills of assessment literacy and data analysis. There is little or no evidence of interaction with staff concerning assessments. The leader is indifferent to data and does not use data to change schedules, instruction, curriculum or leadership. Student achievement remains unchanged or declines. The leader does not use assessment data from state, district, school, and classroom.

	changes result in increased	district school and

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How might you engage other school leaders in sharing quality examples of formative assessment and use of interim assessment data? What procedures might you establish to increase your ability to help your colleagues provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement?	How might you engage teacher leaders in sharing quality examples of formative assessment practices with other faculty? How can you provide ongoing professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement?	How are you systematically seeking, synthesizing, and applying knowledge and skills of assessment literacy and data analysis? In what ways are you sharing your knowledge with staff to increase all students' achievement? In what ways are you using state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions to increase student achievement?	How are you expanding your knowledge and/or skills of assessment literacy and data analysis? What strategies have you considered that would increase your interaction with staff concerning assessments? How are you using your knowledge and skills of assessment literacy to change schedules, instruction, and curriculum or leadership practices to increase student achievement?

Indicator 3.6 – Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district's instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Narrative: School leaders are responsible for monitoring the effectiveness of classroom teachers. This indicator addresses the proficiency and focus of the leader's monitoring processes to maintain awareness of faculty effectiveness and the use of monitoring data to improve student and faculty performance. The focus here is on monitoring teacher use of strategies supported by contemporary research, teacher proficiency on issues contained in the district's teacher evaluation system, what teachers do to improve student achievement, and faculty proficiency on the FEAPs.

Note: Indicator 3.1 is focused on the leader's grasp of the FEAPs whereas this indicator focuses on monitoring the faculties' grasp of the FEAPs. Indicator 4.2 is focused on the leader's use of monitoring data to provide timely feedback.

Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader's monitoring process generates a shared vision with the faculty of high expectations for faculty proficiency in the FEAPs, research-based instructional strategies, and the indicators in the teacher evaluation system. The leader shares productive monitoring methods with other school leaders to support district wide improvements.	The leader's effectiveness monitoring process provides the leader and leadership team with a realistic overview of the current reality of faculty effectiveness on the FEAPs, the indicators in the teacher evaluation system, and research-based instructional strategies. The leader's monitoring practices are consistently implemented in a supportive and constructive manner.	The district teacher evaluation system is being implemented but the process is focused on procedural compliance rather than improving faculty proficiency on instructional strategies that impact student achievement. The manner in which monitoring is conducted is not generally perceived by	Monitoring does not comply with the minimum requirements of the district teacher evaluation system. Monitoring is not focused on teacher proficiency in research-based strategies and the FEAPs.

How do you convey to highly effective teachers specific feedback that would move them toward even higher levels of proficiency?	How do you improve your conferencing skills so your feedback to teachers is both specific enough to be helpful and perceived as support rather than negative criticism?	How do you restructure your use of time so that you spend enough time on monitoring the proficiency of instructional practices and giving feedback to be an effective support for the	How do you improve your own grasp of what the FEAPs require so that your monitoring has a useful focus?
How do you engage highly effective teachers in		faculty?	
sharing a vision of high quality teaching with their			
colleagues so that there is no plateau of "good enough"?			

Proficiency Area 4: <u>Faculty Development</u>: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Narrative: This proficiency area is aligned with FPLS standard 4. It moves the focus from "what is the current reality" of faculty proficiency to continuous progress toward what the faculty can achieve with effort and focus.

Indicator 4.1 – Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Narrative: The focus of this indicator is on the leader's actions to staff the school with the best faculty possible for the needs of the school population. It addresses actions taken to anticipate staffing needs, seek out quality applicants, and efforts to retain quality staff once on the faculty.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader tracks the success of her or his recruitment and hiring strategies, learns from past experience, and revisits the process annually to continually improve the process. The leader engages in a variety of traditional and non-traditional recruitment strategies and then prioritizes based on where	The leader works collaboratively with the staff in the human resources office to define the ideal teacher based upon the school population served. The leader is sensitive to the various legal guidelines about the kind of data that can be sought in interviews. A hiring selection tool that helps interviewers focus on key instructional	The leader relies on the district office to post notices of vacancies and identify potential applicants. Efforts to identify replacements tend to be slow and come after other schools have made selections.	The leader approaches the recruitment and hiring process from a reactive rather than a proactive standpoint. Consequently, the process may not be well thought out, is disjointed, and not aligned with key success criteria embedded within the teacher evaluation documents essential to organizational success.

What can be done to encourage quality teachers to stay with your school and quality applicants to seek to join the faculty?	What connections do you have to reach potential applicants other that the districts personnel office?	Have you gathered data about why teachers choose to leave your faculty? What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert?	At what point in the school year do you check on staff retention and estimate future staffing needs? In what ways are professional learning opportunities linked to individual faculty needs?

Indicator 4.2 – Feedback Practices: The leader monitors, evaluates proficiency, and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals

and the cause and effect relationships between professional practice and student achievement on those goals.

Narrative: Where indicator 3.6 focuses on monitoring to maintain awareness of faculty effectiveness, this indicator focuses on the use of the monitoring process to provide quality and timely feedback to teachers. The feedback processes need to deepen teacher understanding of the impact of their practices on student learning.

Highly Effectives 1 - 2 - 2	Effective: Leader's actions	Noods Improvements	Uncaticfactory

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance and that of the school? What might you do to ensure that they see this important connection?	What are some examples of focused, constructive, and meaningful feedback that you provide to your staff? How does this support their learning?	In what ways do you currently recognize faculty in providing feedback and affirmation to them? To what extent do you acknowledge the efforts of teams, as well as that of individuals?	How can frequent, focused, and constructive feedback support teachers in improving their instructional practice?

Indicator 4.3 – High effect size strategies: Instructional personnel receive recurring feedback on their proficiency on high effect size strategies.

Narrative: Teaching is a complex process. The "right thing to do" varies with conditions in the classroom. However, teachers need proficiency on a core repertoire of high importance strategies. These are strategies all teachers are expected to be able to use effectively. This indicator is focused on the leader's proficiency in focusing faculty attention on improvement of those "high effect size" strategies – those with higher probabilities of causing student growth when done correctly and in appropriate circumstances.

Note: Department lists of high-effect size strategies are posted at www.fldoe.org and
Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader uses a variety of creative ways to provide positive and corrective feedback on the implementation of high effect size strategies. As a result, the correct and appropriate implementation of high effect size instructional strategies across the curriculum and grades is a routine part of the learning environment for all students. The entire organization reflects the leader's focus on accurate, timely, and specific recognition of correct and appropriate	In addition to the formal feedback consistent with the district evaluation system indictors, the leader provides recurring informal feedback on high effect size strategies to reinforce proficient performance and highlight the strengths of colleagues and staff. The leader has effectively implemented a system for collecting feedback from teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of high effect size strategies.	The leader adheres to the district evaluation system requirements for providing formal feedback on high effect size strategies, but the feedback is general rather than providing details that improve teaching or organizational performance related to high effect size strategies. The leader tends to view feedback as a linear process; something they provide teachers rather than two way communications where the leader also learns from the teachers' expertise.	The leader is not aware of the high effect size strategies expected to be used in district schools or fails to communicate them to faculty. Feedback on high effect size strategies is rare, nonspecific, and not constructive.

Reflection Questions					
Highly Effective	Effective	Needs Improvement	Unsatisfactory		
How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance on high effect size strategies and as well as the organizational performance? What might you do to ensure that they see this important connection?	What are some examples of focused, constructive, and meaningful feedback on high effect size strategies that you provide to your staff? How does this support their learning?	In what ways do you currently recognize faculty in providing feedback and affirmation to them on high effect size strategies? To what extent do you acknowledge the efforts of teams, as well as that of individuals?	How can frequent, focused, and constructive feedback support teachers in improving their instructional practice?		

Indicator 4.4 - <u>Instructional Initiatives</u>: District supported state initiatives focused on student growth are supported by the leader with specific and observable actions including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives.

Narrative: The Department of Education and/or district-supported initiatives focused on improving student performance require school leader support to be successful at the school site. This indicator addresses the leader's proficiency in supporting such initiatives. Indicator 4.4 also focuses on professional learning needed to implement priority initiatives.

Note: District and FLDOE websites provide support and information about priority initiatives.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. All initiatives are implemented across the grades and subjects as	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Indicator 4.5 – Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Narrative: Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Professional learning on-the-job is an essential aspect of effective schools. School leaders who manage the school in ways that support both individual and collegial professional learning get better outcomes than those who do not. The leader's personal participation in professional learning plays a major role in making professional learning efforts pay off. This indicator addresses the leader's role as a leader in professional development.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader uses a variety of creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies. The leader is personally involved in the learning activities of the faculty in way s that both show support and deepen understanding of what to monitor.	The leader provides recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs. The leader removes barriers to time for professional learning and provides needed resources as a priority. Participation in specific	Less than a majority of the faculty can verify participation in professional learning focused on student needs or faculty proficiency at high effect size strategies. Time for professional learning is provided but is not a consistent priority. Minimal effort expended to assess the impact of professional learning on instructional proficiency.	Focused professional development on priority learning needs is not operational. Few faculty members have opportunities to engage in collegial professional development processes on the campus. Individual professional learning is not monitored and is not connected to the school improvement plan or student learning needs.

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What strategies have you implemented so that you spread your learning about providing professional learning for individual and collegial groups within your school to your colleagues across the school system?	What might be some creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies?	As you think about your leadership in providing professional learning, what are key strategies for you to consider that would help you provide recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs?	How would you describe your efforts to make certain that your professional learning is focused on student needs or faculty proficiency at high effect size strategies?

Indicator 4.6 – Faculty Development Alignments: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by:

- generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan,
- identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement),
- aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals,
- and using instructional technology as a learning tool for students and faculty.

Narrative: Faculty development has many aspects. This indicator addresses the leader's proficiency at developing faculty capacity to implement culturally relevant differentiated instruction by <u>aligning</u> the various faculty developments processes and practices with certain key issues (Standards-based content, research-based methods, data for planning, etc. as specified in the text of the standard.)

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader has demonstrated a record of differentiated professional learning for faculty based on student needs. The leader has developed a system of job-embedded professional learning that differentiates training and implementation of instructional priorities based on teacher needs, which help retain proficient and highly exemplary staff. The leader routinely shares professional learning	Professional learning includes a plan for the implementation of the prioritized instructional needs (e.g., research-based instruction, data analysis, instructional technology, culturally relevant) aligned to school improvement plan and some effort has been made to differentiate (coaching, mentoring, collaborative teams, coaching) and embed professional development to meet the needs of all faculty members. The leader is able	The leader attempts to implement all of the priority instructional needs without a plan for doing so. The leader is aware of the differentiated needs of faculty and staff members, but professional development is only embedded in faculty meetings at this time, rather than incorporating the use of collaboration, study teams, etc. in order to meet the unique needs of staff.	Professional learning is typically "one size fits all," and there is little or no evidence of recognition of individual faculty needs or matching of faculty needs to student achievement needs. Consequently, retaining proficient and exemplary staff is problematic.

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What procedures have you established to increase professional knowledge opportunities for colleagues across the school system?	What system do you use to prioritize learning needs and empower faculty to create individual learning plans?	What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert?	In what ways are professional learning opportunities linked to individual faculty needs?

Indicator 4.7 – Actual Improvement: The leader improves the percentage of effective and highly effective teachers on the faculty.

Narrative: An indicator required by 1012.34 F.S., the focus is on whether the accumulated impact of the leader's actions result in positive trend lines on teacher effectiveness. Evidence gathered from proficiency area #3 provide a base line that, along with teacher rating in the district's teacher evaluation system and student growth measures, enable assessment of whether actual improvement in teacher's proficiency is occurring.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The percentage of teachers rated effective or highly effective increases while the percentage rated needs improvement for two consecutive years declines. Student growth measure and instructional practice ratings are in substantial agreement for at least 75 percent of the faculty.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The percentage of teachers rated effective or highly effective increases or remains stable within five percentage points of the prior year, but there is evidence of specific improvements in student growth measures or proficiency in high effect size strategies.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. There is no evidence of improvement in student growth measures for the majority of the teachers rated as effective, needs improvement, or unsatisfactory. There is significant variation between teachers' student growth measures and principal's assessment of instructional practices.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The percentage of teachers rated effective or highly effective declines and cannot be explained by changes in staff membership. There is no evidence of improvement in student growth measures for the majority of the teachers rated as needs improvement or unsatisfactory.
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:		Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:	
Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members on student growth measures and identifies those making demonstrable progress.		 The percentage of teachers rated highly effective increases. The percentage of teachers rated effective increases. The percentage of teachers previously rated as needing improvement (developing) or unsatisfactory decreases. 	

- Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members on high effect size strategies and identifies those making demonstrable progress.
- Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members rated as needs improvement or unsatisfactory and can identify specific areas of improvement.
- The leader tracks student growth data and teacher assessment data aligned to learning goals to track actual improvement in teacher performance and maintains records of the percentage of staff showing growth over time.
- Other leadership evidence of proficiency on this indicator.

- The percentage of teachers ranking at or above the district average on student growth measures increases.
- The percentage of teachers with highly effective rating on high effect size instructional strategies increases.
- Lesson studies produce revised lessons with improved student outcomes.
- Tracking of learning goals produces data and trend lines showing improvement in teacher effectiveness.
- State and district tests show improved student performance.
- VAM scores in teacher assessment show improvement and trend lines show improvement in percentage of results based on VAM scores.
- Other impact evidence of proficiency on this indicator.

How well aligned are your assessments of instructional practice with the results of student growth measures?	How would you describe your efforts to improve instruction?	How would you describe your efforts to understand what instructional improvements are needed and then communicate that in useful ways?	How are you making a difference in the quality of teaching in your school?
In what ways are you assisting the better performing teachers to improve as much as you are	In what ways are you providing feedback on instructional practice that result in improved student learning for those teachers most in need of growth?	What information are you collecting to help you know what is or is not happening in the classrooms where teachers need improvement?	What are some of the strategies you are employing that help you be aware of where the greatest problems are in terms of instructional proficiency?

assisting the lower		
performers?		

Proficiency Area 5: <u>Learning Environment</u>: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.

Narrative: This proficiency area is aligned with FPLS standard 5. Much of what student's experience in school is a result of decisions and actions by the adults in the school. Learning environments that are success oriented, student centered, treat diversity as an asset, and focus on eliminating achievement gaps support students preparation for fulfilling lives.

Indicator 5.1 – Student Centered: The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Narrative: School leaders who monitor what students experience by being enrolled in the leader's school have better insights on how to make the system work than those who do not monitor impact of policies and practices on students. It is the leader's responsibility to know whether student life is equitable, respectful, and supportive of engagement in learning.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader provides clear, convincing, and consistent evidence that they ensure the creation and maintenance of a learning environment conducive to successful teaching and learning for all and shares these practices with others throughout the district.	The leader provides clear evidence that they create and maintain a learning environment that is generally conducive to ensuring effective teaching practices and learning, although there may be some exceptions.	The leader provides limited evidence that they create a safe school either in planning or actions. Collects data on curricular and extra-curricular student involvement.	The leader provides little to no evidence that s/he make plans for a safe and respectful environment to ensure successful teaching and learning or addresses safety concerns as they arise. Does not collect data on curricular and extra-

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What practices have you engaged in to increase professional knowledge opportunities for colleagues across the school system regarding your efforts to ensure the creation and maintenance of a learning environment conducive to successful teaching and learning for all?	What evidence would you accept you were ensuring the creation and maintenance of a learning environment conducive to successful teaching and learning for all?	How would you describe your efforts to provide clear evidence that you create and maintain a learning environment that is generally conducive to ensure effective teaching and learning, although there may be some exceptions?	What strategies are you intentionally implementing to create and maintain a safe and respectful environment to ensure successful teaching and learning or addresses safety concerns as they arise?

Indicator 5.2 - Success Oriented: Initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.

Narrative: The issues in 5.1 focus on monitoring how school policy and practice affect the quality of student lives. This indicator shifts focus from those broad issues to what happens at the school that creates opportunities for student success and students' perceptions that school life is organized to do something good for them. School should be rigorous and demanding but also implemented in ways that create recurring opportunities for success.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
Through all grades and subjects a multi-tiered system of supports is operational providing core universal supports (research-based, high-quality, general education instruction and support; screening and benchmark assessments for all students, and continuous data collection continues to inform instruction). Where student are not successful on core instruction, problem solving is employed to identify and implement targeted supplemental supports (data based interventions and progress monitoring). Where targeted supplemental supports are not successful, intensive individual supports are employed based on individual student needs.	Problem solves skillfully (e.g., conceptualizing, applying, analyzing, synthesizing, and/or evaluating information) to provide adequate time, resources, and support to teachers to deliver the district's curriculum to all students. Celebrations of student success are common events and are focused on recognition of the methods and effort expended so students understand what behaviors led to the success. Most grades and subject track student learning growth on priority instructional targets. MTSS operational across the grades and subjects.	Problem solving efforts are unskillfully used to provide adequate time, resources, and support to teachers to deliver the district's curriculum and state's standards to students. Celebrations of student success are provided but are inconsistent in focusing on how/why students succeeded. MTSS operational in some classes.	No actions other than use of slogans and exhortations to succeed are taken by the leader to address practices and process that actually enable success. MTSS not operational.

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What supports do you need to provide to deepen the faculty's capacity to provide intensive individual supports? How do you share effective continuous progress practices with oth4r school leaders?	How do you enable teachers proficient at MTSS to share the process with other teachers? What continuous progress practices should be shared with the entire faculty?	How do you monitor instructional practice to assess the quality of implementation of MTSS? How do you monitor the impact of targeted supplemental supports? What barriers to student success are not being addressed in your school?	How do you obtain training on what the MTSS model requires and how do you convey the expectations inherent in the model to your faculty?

Indicator 5.3 – <u>Diversity</u>: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.

Narrative: "Diversity practices" refers to the capacity of teachers and school leaders to recognize the many variations in students that impact learning growth (e.g. learning processes, prior learning experiences, family and cultural backgrounds); implement practices that respect diversity in learning needs (e.g. multi-tiered system of supports) and make adjustments at the classroom level that make use of student strengths and promote growth needs.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader shares with others throughout the district strategies that help them put into action their belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff. The leader provides an instructional program where recurring adaptations in instructional to address variations in student learning needs, styles, and learning strengths are routine events in all classes.	The leader systematically acts on the belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff. Classroom practices consistently reflect appropriate adjustments based on cultural, racial, ethnic backgrounds of students. The leader's expectations that teachers adapt instructional strategies to meet individual student needs are an accepted part	The leader inconsistently acts on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff. The leader has taken some actions that set expectations for teachers adapting instructional strategies to meet individual student needs and such individualization is evident in some but not most classes.	The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum, instruction, and assessment that are culturally, racially, or ethnically insensitive and/or inappropriate. Takes no actions that set expectations for teachers adapting instructional strategies to meet individual student needs.

	of the shared vision of the		
	leader and faculty.		
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Documents that support the use of diversity as an asset in the development and implementation of procedures and practices. Agendas, memorandum, etc., reflecting recurring attention at faculty meetings to capacity to recognize diversity issues and adapt instruction accordingly. Leader's actions in providing professional learning for faculty that deepens understanding of a range of diversity issues and evidence of monitoring for implementation in the classroom of appropriate diversity practices. School policies, practices, procedures that validate and value similarities and differences among students. The school leader collects and reviews agenda and minutes from departmental or team meetings to monitor attention to diversity issues in pursuit of student learning growth. What procedures might you establish to increase your ability to help your colleagues develop curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	What strategies might you employ so that you could share with others throughout the district practices that help them put into action your belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	How might you increase the consistency with which you act on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?	How might you expand the opportunities for all students to meet high expectations by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?

Indicator 5.4 – Achievement Gaps: The leader engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.

Narrative: Where indicator 5.3 is focused on the broad array of diversity factors that impact success of individual students and student sub-groups, indicator 5.4 focuses on <u>academic growth</u> of specific sub-groups whose academic performance lags behind what they are capable of achieving. The leader is expected to prepare the faculty to do what is needed to meet the academic improvement needs of the sub-group(s).

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader has created a self-regulating system based	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Processes to minimize achievement gaps within all	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Sub-groups within the school and associated with	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Reflection Questions			
Highly Effective	Effective	Needs Improvement	Unsatisfactory
What strategies might you employ to increase your ability to help your colleagues understand how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment, etc.) in order to improve student achievement?	What are one or two critical steps you could take that would shift your examination of culture to a point that they become a self-regulating system based on data that guarantees regular and predictable success even if conditions change?	How might you systematically apply the process of inquiry to develop methods of generating greater understanding of the cultures of individuals within the building and how the elements of culture are impacted by the current systems (e.g., curriculum, instruction, assessment) to improve student achievement?	Why do sub-groups students like those in your school not perform as well as similar groups in other schools? In what ways might you demonstrate greater understanding of cultures and their impact on the current systems in your school to improve student learning?

Domain 3: Organizational Leadership

Narrative: This domain addresses proficiencies that impact the quality of a broad array of school operations. The focus is applying these proficiencies to improve student achievement, instructional leadership, and professional conduct.

Narrative: This proficiency area is aligned to FPLS standard #6. How decisions are made can be as important as what decisions are made. The leader's proficiency at balancing the various aspects of decision-making is the focus of this area.

Indicator 6.1 – Prioritization Practices: The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Narrative: Leaders make many decisions. Those that impact student learning and teacher proficiency require priority attention. The focus is the leader's ability to make sure that decisions on student learning and faculty proficiency are not lost among the lower priority issues or given inadequate attention because of all the other things leaders do.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader produces clear, convincing, and consistent evidence that demonstrates an understanding of learning, teaching, and student development to inform all decisions and continuously uses this information to enhance teaching and learning.	The leader's decisions consistently demonstrate an understanding of learning, teaching, and student development. The leader produces clear evidence of making most decisions in a way that supports the school's vision	The leader provides limited evidence that demonstrates understanding of learning, teaching, and student development to inform decisions or is inconsistent in using this information to enhance decisions about teaching and learning.	The leader provides little or no evidence that demonstrate awareness of learning, teaching, and student development to inform decisions. The leader produces little to no evidence of making decisions that are linked to

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How do you continue to clarify the decision-making process in a dynamic, changing environment?	Why is it necessary for you as a school leader to reevaluate prior decisions and programs in light of emerging research, personal experience, and changing situations?	What will you do from now on to ensure previous decisions and programs are revisited and evaluated on a routine basis?	When do you take time with your leadership team to reflect on decisions that have been made? In what ways do you evaluate decisions on the basis of student achievement?

Indicator 6.4 – Distributive Leadership: The leader empowers others and distributes leadership when appropriate.

Narrative: A school is too complex for one person to make all decisions. Some of the functions of leadership must be shared with others. Developing capacity for success in a workforce requires enabling other people to be responsible for meaningful decisions. The leader's capacity to share the "right stuff" and distribute decision making among other appropriate staff is the focus here.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
Innovation and improvement in instructional processes, faculty development, or school operations have resulted from distributive leadership.	The leader creates opportunities for staff to demonstrate leadership skills by allowing them to assume leadership and decision-making roles.	Some well-understood leadership roles other than the school principal are functioning and contributing to effective and timely decisions on some school priorities, but there are recurring delays in reaching decisions on other issues.	There is no or only minimal evidence that anyone other than the principal has a meaningful role in making timely decisions. The leader rarely seeks input
The leader encourages staff members to accept leadership responsibilities outside of the school building. The leader incorporates teacher and support staff into leadership and decision-making roles in the school in ways that foster the career development of participating teachers.	The leader supports the decisions made as part of the collective decision-making process. Decision-making delegations are clear: Sub-ordinates know what decisions are made by the leader, which by the leader after input from others, and which are delegated to sub-ordinates to decide.	Decisions are often rushed or made without appropriate input due to lack of planning and implementation of development activities by staff members.	on significant issues from a variety of stakeholder groups (e.g. faculty leaders, teachers, student, parents, community, or business leaders).

Leadership Evidence of proficiency on this indicator	Impact Evidence of leadership proficiency may be	
may be seen in the leader's behaviors or actions.	seen in the behaviors or actions of the faculty, staff,	
Illustrative examples of such evidence may include,	students and/or community. Illustrative examples of	
but are not limited to the following:	such evidence may include, but are not limited to the	
	following:	
 Organizational charts or other documents reveal how leadership is distributed and informs who is involved in what. School improvement plan process reflects involvement by a variety of parties. Evidence of shared decision-making and distributed leadership is present in leader's memorandums, emails, and other communications. Leader's communication to faculty and stakeholders recognizes the role of those to whom leadership functions were distributed. Other leadership evidence of proficiency on this indicator. 	 Sub-ordinate leaders and teacher leaders report meaningful roles in decision making. Minutes, agendas, and other records of meetings held by sub-ordinate leaders reflect their involvement in significant decision making. Teachers are able to identify which colleagues have a leadership or decision making role in any given issue. Teacher and or parent surveys reflect satisfaction with access to sub-ordinate and teacher leaders rather than requiring access only to the principal. Other impact evidence of proficiency on this indicator.

Indicator 6.5 – Technology Integration: The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Narrative: Technology was a separate standard in the 2005 Florida Principal Leadership Standards (FPLS). By 2011 the state had made great strides toward accepting technology into the schools. In the 2011 FPLS, technology moved from a separate general "pro-technology" standard to focused <u>applications</u> of technology embedded in several standards. This indicator focuses on technology integration and the leader's use of technology to improve decision-making processes in several priority areas.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader mentors other school leaders on effective means of acquiring technology and integrating it into the decision- making process. The leader provides direct mentoring and coaching supports so that new staff and new sub-ordinate leaders are quickly engaged in effective use of technology supports needed to enhance decision-making quality.	Technology support for decision- making processes is provided for all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership. Engages sub-ordinate leaders in developing strategies for coaching staff on integration of technology.	Technology support for decision- making processes is provided for some, but not all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports some, but not all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership.	There is no or only minimal evidence that decision-making prioritization, problem solving, decision evaluation or distributed leadership processes are supported by technology integration. Decision making is not supported by a well-understood system of procedures to identify problems and generate solutions.
			Technology integration does not support data exchanges,

	project management, and feedback processes.
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:	Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:
 School improvement plan reflects technology integration as a support in improvement plans. Leader has a technology integration plan used to provide technology supports to the degree possible with available resources. School website provides stakeholders with informatio about and access to the leader. Technology tools are used to aid in data collection and analyses and distribution of data findings. Evidence that shared decision -making and distributed leadership is supported by technology. Technology used to enhance coaching and mentoring functions. Other leadership evidence of proficiency on this indicator. 	 PowerPoint presentations, e-mails, and web pages of faculty members support involvement in decision making and dissemination of decisions made. Faculty use social network methods to involve students and parents in data collection that supports decision

Under what circumstances would you be willing to support increased use of technology to support efficiency in communication and decision-making processes?	What factors prevent you from supporting technology integration??
the emerging global economy?	How might the technology improve the quality of decisions at your school?	How might you use the function of delegation to empower staff and faculty at your school to make more proficient use of technology integration?	

Proficiency Area 7. <u>Leadership Development</u>: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Narrative: This proficiency area aligns to Standard 7. Leaders are developed by other leaders. This is a process critical to an organization's capacity to improve over time and sustain quality processes. This proficiency area focuses on what leaders do to develop leadership in others.

Indicator 7.1 – Leadership Team: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Narrative: The FPLS are based on a presumption that the school leader works with and through a team of other people to insure coordination and focus of school operations and improvements. Leadership teams get things done!

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's

How do you provide guidance and mentorship to emerging leaders outside of your personal job description and leadership responsibilities? How would you describe the system you use to ensure that emerging leaders pursue job opportunities when they are available? How might you embed this preparation into their job duties, and what changes will you need to make to help build such leadership capacity at your school?	How have you designed the school improvement process to develop leadership capacity from existing faculty? What strategies and lessons might you impart to your direct reports to better prepare them for expanded leadership opportunities?	What process do you employ to encourage participation in leadership development? When do you release responsibility to your assistants to own key decisions? How do you leverage school improvement activities to build leadership capacity for assistants and emerging teacher leaders?	What process is available to you that help you screen and develop potential leaders? How might you spend time explicitly preparing your assistants to assume your role as principal? What steps would you take to spend more time in preparing your assistants to assume your role as principal?

Indicator 7.2 – Delegation: The leader establishes delegated areas of responsibility for sub-ordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure.

Narrative: Leadership teams engage other skilled people in the business of the school. However, involvement does not insure effective organizations. This indicator focuses on the distribution of responsibility and whether subordinate leaders have been delegated all that is needed to succeed.

but are not limited to the following:	but are not limited to the following:	
 A Responsibility Matrix or chart of "who does what" provides evidence that the leader trust others within the school by identifying how leadership responsibilities are delegated to other faculty members on his or her staff. The leader's processes keep people from performing redundant activities. The leader has crafted "job descriptions" for subordinate leaders' roles that clarify what they are to do and have the delegated authority to do. Communications to delegated leaders provide predetermined decision-making responsibility. Documents initiating projects and tasks identify personal responsibility for success at the beginning of the project. Delegation and trust are evident in personnel evaluations. Delegation and trust are evident in the school improvement plan as a variety of school staff are identified as being directly responsible for various components of the planning effort. Meeting minutes provide evidence of delegation and trust being extended to select members of the faculty. Other leadership evidence of proficiency on this indicator. 	 Teachers report that areas of delegated responsibility include authority to make decisions and take action within defined parameters. Faculty and staff can cite examples of delegation where the leader supported the staff member's decision. Faculty report that building leaders express high levels of confidence in their capacity to fulfill obligations relevant to the shared task of educating children. Staff to whom responsibility has been delegated in turn delegates appropriate aspects of their tasks to other staff thus expanding engagement. Other impact evidence of proficiency on this indicator.

Indicator 7.3 – Succession Planning: The leader plans for and implements succession management in key positions.

Narrative: When the leader is off campus – who is in charge? When the leader changes jobs or retires, who is prepared to take over? What about the school's subs-ordinate leaders? Who takes over for them? Succession planning is building relationships and preparation processes for involving others in ways that prepare them to move into key positions as they become vacant.

Indicator 7.4 – Relationships: The leader develops sustainable and supportive relationships between school leaders, parents, community, higher education, and business leaders.

Narrative: This is a fundamentally important skill set. Leaders get quality work done through other people. The skill set of relationship building, including networking and engaging others in a shared vision, are hallmarks of quality leaders.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
While maintaining on-site work relationships with faculty and students as a priority, the leader finds ways to develop, support, and sustain key stakeholder relationships with parent organizations, community leaders, and businesses, and mentors other school leaders in quality relationship building. The leader has effective relationships throughout all stakeholder groups and models effective relationship building for other school leaders.	The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) networks with all key stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) in order to cultivate, support, and develop potential and emerging leaders. Leader has effective collegial relationships with most faculty and subordinates.	The leader is inconsistent in planning and taking action to network with stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) to support leadership development. Relationship skills are employed inconsistently.	The leader makes no attempt to or has difficulty working with a diverse group of people. Consequently, the leader does not network with individuals and groups in other organizations to build collaborative partnerships in support of leadership development.
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Reflection Questions for Indicator 7.4

Highly Effective	Effective	Needs Improvement	Unsatisfactory
In what ways might you further extend your reach within the district to help others throughout the district benefit from your knowledge and skill in establishing relationships among key stakeholder groups?	What strategies are you employing so you can share your experiences relative to establishing relationships with key stakeholders to support potential and emerging leaders?	In what ways are you working to establish networks with key stakeholder groups to cultivate and support potential and emerging leaders in your school?	How might your relationships with faculty and key stakeholder groups help to cultivate and support potential and emerging leaders in your school?

Proficiency Area 8. <u>School Management</u>: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Narrative: This proficiency area aligns with Standard 8. A school is an "organization." School leaders manage implementation of many rules, regulations, and policies. However, the "organization" is the people working together to provide learning to students. What leaders do to manage those people and the environment in which they work is the focus of this area.

Indicator 8.1 – Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Narrative: Time, tasks, and projects all need organization to have the desired impact. This indicator focuses on the key aspects of organization essential to school success.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.
The leader uses project management as a teaching device, helping others understand the interrelationship of complex project milestones throughout the organization. The leader uses complex project management to build system thinking throughout the organization. Project plans are visible in heavily trafficked areas, so that accomplishments are publicly celebrated and	Project management documents are revised and updated as milestones are achieved or deadlines are changed. The leader understands the impact of a change in a milestone or deadline on the entire project, and communicates those changes to the appropriate people in the organization. Task and project management and tracking of deadlines are routinely	Project management methodologies are vague or it is unclear how proposed project management tools will work together in order to help keep tasks and projects on time and within budget. The impact of changes in an action plan or deadline is inconsistently documented and communicated to people within the organization.	There is little or no evidence of time, task or project management focused on goals, resources, timelines, and results.

Reflection Questions for Indicator 8.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How much of your work on organization of time and projects is reactive to establish conformity with deadlines and short term situations and how much is proactive focused on creating capacity for continuous improvement.? Are you able to identify and articulate to others the systemic connections between the various projects and tasks you manage?	To what extent are tasks and major tasks delineated in your overall project design? What might you do to emphasize the most important components over minor tasks? How do you distinguish between the support needed for high priority projects and tasks that impact student achievement or faculty development and compliance with projects that have fixed due dates for parties outside the building?	How do you ensure unanticipated changes do not derail or prevent completion of key projects at your school? How do you monitor whether work needed to meet deadlines is proceeding at a necessary pace?	What changes in your practice are needed to ensure necessary projects are identified, realistically designed, carefully implemented, and supported with sufficient time and resources? How to you distribute workloads so the appropriate people are involved and with sufficient clarity on goals and timeframes to get work done?

Indicator 8.2 – Strategic Instructional Resourcing: The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

Narrative: Resources are always limited. How well a leader does at putting resources where they are needed and when they are needed to support instructional goals is the focus here. Do teachers and students get what they need when they need it?

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader regularly saves resources of time and money for the organization,	effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader leverages knowledge of the budgeting process, categories, and	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader sometimes meets deadlines, but only at the expense of breaking the	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader has no clear plan for focusing resources on instructional priorities and
and proactively redeploys those resources to help the organization achieve its strategic priorities. Results indicate the positive impact of redeployed resources in achieving strategic priorities. The leader has established processes to leverage existing limited funds and increase capacity through grants, donations, and community resourcefulness.	funding sources to maximize all available dollars to achieve strategic priorities. The leader has a documented history of managing complex projects, meeting deadlines, and keeping budget commitments. The leader documents a process to direct funds to increase student achievement that is based on best practice and leveraging of antecedents of excellence in resources, time, and instructional strategies.	budget; or, the leader meets budgets, but fails to meet deadlines. The leader lacks proficiency in using the budget to focus resources on school improvement priorities. Resources are not committed or used until late in the year or are carried over to another year due to lack of planning and coordination. The leader makes minimal attempts to secure added	little or no record of keeping commitments for schedules and budgets.
Leadership Evidence of pro may be seen in the leader's	•	Impact Evidence of leaders seen in the behaviors or sta

Reflection Questions for Indicator 8.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases to student achievement?	To what extent are faculty and staff aware of your budgeting expectations? How are your budgeting expectations delineated, published, and communicated?	Have there been instances in which you failed to meet deadlines or where expenditures resulted in budget overruns? What did you learn from that experience and how did you apply lessons from it?	When resources are limited, what actions do you take as the school leader to allocate them most efficiently?

Indicator 8.3 – Collegial Learning Resources: The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.

Narrative: Team learning is an essential element in a learning organization. Does the leader provide needed supports to collegial learning? Are barriers to success removed? Everyone working in isolation reduces the probability of improvements. Collegial processes need resource support. This indicator assesses the leader's proficiency at providing that support.

Reflection Questions for Indicator 8.3

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases in the	To what extent are faculty and staff aware of your focus on collegial processes? How are faculty given opportunities to request or recommend time or resource allocations that support collegial processes and faculty development?	Have there been instances in which you failed to act on opportunities to support collegial processes or faculty development? What did you learn from that experience and how did you apply lessons from it?	When resources are limited, what actions do you take as the school leader to reallocate them to the high impact functions like collegial processes and faculty development?

quality of collegial		
processes?		

Proficiency Area 9. <u>Communication</u>: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by:

- Practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community;
- Managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; and
- Recognizing individuals for good work; and maintaining high visibility at school and in the community.

Narrative: The "voice of the school" represents a core set of communication processes that shape perceptions about the school – the leader's communications central among them. The leader must manage the "voice of the school" so clear, coherent and accurate information flows to faculty, students, and stakeholders. The perceptions of those involved in the success of the school need to be heard, acknowledged, and understood.

Indicator 9.1 – Constructive Conversations: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

Narrative: Skillful "speaking" is important. So is skillful listening. People can engage in conversation on many things, but some things are more important to school improvement than others. Making sure speaking and listening occurs on the important issues is a leader's task.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's

Reflection Questions for Indicator 9.1

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How might you further expand your influence over your colleagues within the district relative to the implementation of effective listening and communication techniques?	What support might you provide your colleagues within the school that would help them become as capable in the area of listening and communicating as you?	How would you describe your efforts to implement a plan to communicate with various stakeholders within your school community? What might be some of the things you are taking away from this experience that will influence your communication practice in the future?	How might listening with the intent to learn from students, staff, parents, and community stakeholders be beneficial to the successful operation of the school?

Indicator 9.2 – Clear Goals and Expectations: The leader communicates goals and expectations clearly and concisely using Florida's common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receives timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

Narrative: Proficiency in the competencies addressed in this indicator impacts success on many other indicators. The most successful school leaders are able to provide clear goals and expectations on every aspect of school operations and instructional leadership. You need to do the "school leader's two step." Having clear goals and expectations is step one, communicating them so others can act on them is step two.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's

Reflection Questions for Indicator 9.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What additional strategies have you established to diffuse your practices on goals and expectations among your colleagues across the school system?	How might you articulate to faculty the benefits that could be gained by the school if parents and community members understood the rationale for most decisions on goals and expectations?	How might you improve your consistency of interactions with stakeholders regarding the work of the school?	What are your priority goals for school improvement? How do you know whether others find them clear and comprehensible?
How does feedback from key stakeholder groups inform the work of the school?		Knowing that some teachers and parents are reluctant to initiate conversations with school leaders, what strategies have you employed or considered in which you—as the leader—would initiate communication on priority goals and expectations?	

Indicator 9.3 – Accessibility: Maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

Narrative: Leaders need to be seen by those they are to lead...and those who are asked to engage in rigorous effort on the leader's goals need access to the leader. While leaders must manage their time, they must also make sure those who need access can get it in reasonable ways and timeframes. In a 21st century technological society use of social networking and other technologies to promote accessibility is a valuable leadership competency.

Reflection Questions for Indicator 9.3

Highly Effective	Effective	Needs Improvement	Unsatisfactory
How can you involve sub- ordinate leaders as high visibility assets of the school?	What uses can you make of modern technology to deepen community engagement and expand your accessibility to all?	How can you assess what students, faculty, and stakeholders think of your level of accessibility?	What work habits would you need to change to be more visible to students, faculty, and stakeholders?

Indicator 9.4 – Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Narrative: Leading is about enabling others to succeed. Recognition of the successes and contributions of others is a key leadership function. Recognition from the leader is motivating and focusing. The recognition needed is more than "good job." It identifies what people did to generate the success being recognized. Recognizing the way in which people succeed encourages them to continue those practices and informs others "by what methods" they may do the same.

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What might be some of the potential benefits that would come from you sharing your talents in this area with your colleagues in the district?	In what ways are you utilizing the recognition of failure as an opportunity to improve? How do you enable those that make progress to share "by what method" they did so?	How might you compare your beliefs about the importance of providing individual and collective praise to your actual practice?	As you assess the importance of acknowledging failures and celebrating accomplishments, what assumptions are guiding you?

	What do you want to be	
	most aware of as you make	
	future plans in this area?	

Domain 4 - Professional and Ethical Behavior

Narrative: This domain is focused on the professional integrity and dedication to excellence of the school leader. The indicators in this domain focus on behaviors essential to success as a school leader.

Narrative: There are two broad proficiency areas that are the focus of evaluation of behavior and ethics. One is approached as Proficiency Area 10 of the FSLA which is focused on Florida Principal Leadership Standard #10 (FPLS). The indicators in proficiency area 10 address resiliency, professional learning, commitment, and conduct. The other major professional behavior area, Deliberate Practice, is a separate metric, scored separately and, when combined with the overall FLSA score, generates the Leadership Practice Score.

Indicator 10.1 – Resiliency: The leader demonstrates resiliency in pursuit of student learning and faculty development by:

- staying focused on the school vision,
- reacting constructively to adversity and barriers to success,
- · acknowledging and learning from errors,
- · constructively managing disagreement and dissent with leadership,
- bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and
- productive attitudes in the face of adversity.

Narrative: The lead indicator in this FSLA domain is focused on resiliency. Leadership takes strength of character and a capacity to "weather the storm(s)" to get quality results. It includes learning from mistakes and sticking with it until you get it right.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader builds resilience in colleagues and throughout the organization by habitually highlighting	The leader readily acknowledges personal and organizational failures and	The leader is able to accept evidence of personal and organizational failures or mistakes when offered by	The leader is unwilling to acknowledge errors. When confronted with evidence of mistakes, the

and praising "good mistakes" where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future.

The leader encourages constructive dissent in which multiple voices are encouraged and heard; the final decision is made better and more broadly supported as a result.

The leader is able to bounce back quickly from adversity while remaining focused on the vision of the organization.

The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.

The influence of previous evaluations has a positive impact not only on the leader, but on the entire organization.

offers clear suggestions for personal learning.

The leader uses dissent to inform final decisions, improve the quality of decision-making, and broaden support for his or her final decision.

The leader admits failures quickly, honestly, and openly with direct supervisor and immediate colleagues.

Non-defensive attitude exists in accepting feedback and discussing errors and failures.

There is evidence of learning from past errors. Defined structures and processes are in place for eliciting input.

Improvement needs noted in the leader's previous evaluations are explicitly reflected in projects, tasks, and priorities.

others, but does not initiate or support the evidence gathering.

Some evidence of learning from mistakes is present.

The leader tolerates dissent, but there is very little of it in public.

The leader sometimes implements unpopular policies unenthusiastically or in a perfunctory manner.

The leader tolerates dissent, but there are minimal to no systemic processes to enable revision of levels of engagement, mental models, and/or misconceptions.

The leader is aware of improvement needs noted in previous evaluations, but has not translated them into an action plan.

leader is defensive and resistant to learning from mistakes.

The leader ignores or subverts policy decisions or initiatives focused on student learning or faculty development that are unpopular or difficult.

Dissent or dialogue about the need for improvements is absent due to a climate of fear and intimidation and/or apathy.

No evidence or reference to previous leadership evaluations is present in the leader's choices of tasks and priorities.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following: **Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.
- The leader builds resilience in colleagues and throughout the organization by habitually highlighting and praising "good mistakes" where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future.
- The leader demonstrates willingness to question district authority and policy leaders appropriately with evidence and constructive criticism, but once a district
- Faculty, staff, parents, and community members express perceptions that their concerns and dissent receive fair consideration and are welcome input from the leader even when they disagree with policies or practices being implemented.
- Faculty or students share anecdotes of practices/policies they previously challenged or resisted but, due to principal's resilience, they have changed ways of working without acting in dysfunctional or harmful ways to others within the organization.
- The principal's resilience in pursuit of school improvements has generated a school climate where faculty and staff feel comfortable voicing concerns and

- decision is made, fully supports, and professionally implements organizational policy and leadership decisions.
- The leader recognizes and rewards thoughtful dissent.
- The leader's previous evaluations are explicitly reflected in projects, tasks, and priorities.
- The leader offers evidence of learning from dissenting views
- Improvement plans reflect changes in leadership practices. (either from one year to the next or amending of current plans based on new insights).
- The leader accepts and implements leadership and policy with fidelity and district and state initiatives are represented by the leader in a thorough way citing the student data, research base, and performance goals relevant to these initiatives.
- Other leadership evidence of proficiency on this indicator.

- disagreements and perceive that their concerns are treated as a basis for deepening understanding.
- Previously resisted policies and practices are now perceived by faculty or students as appropriate and are being implemented with fidelity.
- Results of staff, student, or community questionnaire regarding the leader's vision and impact on school improvement efforts.
- Changes advocated by the leader and implemented despite resistance have had a positive impact on student growth.
- Faculty and staff describe the school leader as unwavering in commitment to raising student achievement.
- Other impact evidence of proficiency on this indicator.

leadership decisions? What additional insights	grow to acknowledge and implement systems for	dissent is welcomed as part of an informed decision-	of enthusiasm from yourself or your staff?
have you gained about the value of supporting processes that enable faculty to reflect on and modify their own mental models based on evidence rather than assumptions?	gaining multiple perspectives in decision- making?	making process?	What needs to be done to establish enough trust that faculty and staff feel free to present opposing views with you in an open, sharing way?

Indicator 10.2 – Professional Learning: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Narrative: Professional learning is addressed in several FSLA indicators, each from a different perspective. Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Indicator 4.4 focuses on professional learning needed to implement priority initiatives. Indicator 4.6 addresses alignment of faculty professional learning with improvement of instruction. The Deliberate Practice metric concentrates on a very few issues where the leader drives for deep learning and personal mastery of a few "thin slices." Indicator 10.2 is focused on the impact of the leader's professional learning – does the leader's learning result in improved performance?

Reflection Questions for Indicator 10.2

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What has been most effective in creating a focus on professional learning? How might you lead this effort across the district? How have you synthesized new professional learning into existing learning for more sophisticated application? How have you applied this learning to support and encourage the growth of other leaders? How will you leverage your professional learning throughout the school, district, and beyond?	To what degree do you explicitly identify the focus areas for professional development in faculty and grade level/department meetings? How will you determine whether application of your own professional learning is impacting student achievement and the school as a whole? How are you adjusting application when clear evidence of success is not apparent?	How are you investing your professional learning and applying it to your school on daily basis? How do you apply this learning in multiple leadership venues?	What steps can you take to participate in professional learning focused on school and district goals with your staff? What steps can you take to begin to apply professional learning to your daily work?

Indicator 10.3 – Commitment: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community.

Narrative: Leaders are committed to carrying out the role of school leader in ways that benefit others: Students – faculty – community. Barriers to having that impact are not seen as reasons to give up but as problems to be solved.

Highly Effective: Leader's	Effective: Leader's actions	Needs Improvement:	Unsatisfactory: Leader's
actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The messaging and support	or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There are programs and	Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader demonstrates	actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Other than slogans and
systems of the effective principal are expanded to engage parents and the community at large in participating in actions that promote student success and mitigate or eliminate multiple barriers to success. The principal's actions on behalf of students form a foundation of mutual respect between students, faculty and the community.	processes within the school that focus all students on the importance of success in school and multiple tiers of support to assist them in overcoming barriers to success. Positive slogans and exhortations to succeed are supported with specific and realistic guidance and supports on how to succeed and overcome barriers. The schools vision of success for all students is shared with the community at large.	professional concern for students and for the development of the student's potential but implementation of processes to identify barriers to student success have limited scope and have resulted in actions to mitigate those barriers and provide supports for success only for some students. There are gaps in processes that engage all faculty in understanding the student population and the community in which they live. Some student subgroups do not perceive the school as focused on their best interests.	exhortations to do better, there is minimal or no evidence of principal leadership being employed to implement the FEAPs and FPLS for the benefit of students in the school, and the leader is not perceived by staff, students, or community as a sincere and effective advocate for the students.
Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:		Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the	

- Agenda, memorandum, and other documents show a recurring emphasis on student success with specific efforts to remove barriers to success.
- Agenda, memorandum, and other documents show a recurring emphasis on deepening faculty understanding of the students and the community in which they live.
- The leader can describe the challenges present in the students' lives and provide specific examples of efforts undertaken to support student success.
- Barriers to student achievement or faculty development are identified in the SIP, and strategies are implemented to address them.
- Other leadership evidence of proficiency on this indicator.

- Student results show growth in all sub-groups.
- Faculty members' anecdotal evidence describes a leader focused on and committed to student success.
- Parent and community involvement in student supports are plentiful and address the needs of a wide range of students.
- Student work is commonly displayed throughout the community.
- News reports in local media draw attention to positive actions of students and school.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this
indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being

Reflection Questions for Indicator 10.3

Highly Effective	Effective	Needs Improvement	Unsatisfactory
What actions are needed to sustain the role of the school in generating a community wide effort to insure students succeed?	What outreach can you initiate to expand the involvement of parents and community leaders in supporting student success and deepening understanding of the barriers and actions that mitigate them?	Have you presented an effective challenge to perceptions that student apathy or lack of parent involvement are acceptable explanations for lack of success by some students or sub-groups?	Do you know enough about the students and the community in which they live to recognize the barriers that prevent success by all of the students?

Indicator 10.4 – Professional Conduct. The leader Adheres to the Code of Ethics (Rules 6B-1.001) of the Education Profession in Florida and to the Principles of Professional Conduct for the education profession (Rules 6B-1.006, F.A.C.).

Narrative: State Board Rules define specific expectations for the conduct and ethical behaviors for Florida educators.

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. There is clear, convincing,	Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There is clear evidence that	Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader's behaviors	Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader's patterns of
and consistent evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida, and inspires others within the organization to abide by that same behavior. The leader clearly demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community, as a result the leader achieves and sustains the highest degree of ethical conduct and serves as a model for others within the district.	the leader values the worth and dignity of all people, the pursuit of truth, devotion to excellence (i.e., sets high expectations and goals for all learners, then tries in every way possible to help students reach them) acquisition of knowledge, and the nurture of democratic citizenship. The leader's primary professional concern is for the student and for the development of the student's potential. Therefore, the leader acquires the knowledge and skills to exercise the best professional judgment and integrity. The leader demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community. As a result the leader	enable recurring misunderstanding and misperceptions about the leader's conduct and ethics as expressed in the Code and Principles. There are segments of the school community whose developmental needs are not addressed and leadership efforts to understand and address those needs is not evident. The leader has only a general recollection of issues addressed in the Code and Principles and there is limited evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida.	behavior are inconsistent with the Code of Ethics, Rule 6B-1.001, or disciplinary action has been initiated based on violation of the Principles of Professional Conduct, Rule 6B-1.006.

How to determine an FSLA Score.

Generating a score for the FSLA has four steps:

Step One: Rate each Indicator.

Start with judgments on the indicators. Indicators in each Proficiency Area are rated as HE, E, NI, or U based on accumulated evidence.

- ➤ The FSLA supports this indicator proficiency rating process with <u>rubrics</u> for distinguishing between the levels (HE, E, NI, or U) that are specific to the indicator.
- To guide the rating decision, <u>illustrative examples</u> of leadership actions and illustrative examples of impacts of leadership actions are provided.
- ➤ The rubrics for indicators and the illustrative examples are found in the "long forms" the Data Collection and Feedback Protocols" posted on www.floridaschoolleaders.org (in the Learning Library, Resources Menu: Evaluation Resources School Leaders).
- Ratings can be recorded on the long form or the short form (all FSLA forms and supporting resources are found on www.floridaschoolleaders.org).

Rating Labels: What do they mean?

The principal should complete a self-assessment by scoring each of the indicators. The evaluator also will score each of the indicators. In an end-of the year conference, their respective ratings are shared and discussed. The evaluator then determines a final rating for each indicator and, using the procedures in this scoring guide, calculates an FSLA score.

Indicator ratings:

When assigning ratings to indicators in the FSLA, the evaluator should begin by reviewing the indicator rubrics. These are "word-picture" descriptions of leadership behaviors in each of the four levels of leadership behavior—"Highly Effective", "Effective", "Needs Improvement", and "Unsatisfactory." The evaluator finds the level that best describes performance related to the indicator.

The rating rubrics provide criteria that distinguish among the proficiency levels on the indicator. The illustrative examples of Leadership Evidence and Impact Evidence for each indicator provide direction on the range of evidence to consider. The rating for each indicator is the lowest rating for which the "word-picture" descriptors are appropriate and representative descriptions of what was observed about the leader's performance.

The ratings on the indicators aggregate to a rating on the Proficiency Areas based on tables in this guide. The ratings on the Proficiency Areas within a Domain aggregate to a domain rating, using tables and formulas in this scoring guide.

The FSLA rubrics are designed to give principals a formative as well as a summative assessment of where they stand in all leadership performance areas and detailed guidance on how to improve. While they are not checklists for school visits by the principal's supervisor, they do reflect the key behaviors about which supervisors and principals should be conversing frequently throughout the year. Moreover, these behavioral leadership descriptions will form the basis for principal and supervisor coaching and mentoring sessions.

Distinguishing between proficiency ratings:

The "Effective" level describes leadership performance that has local impact (i.e., within the school) and meets organizational needs. It is adequate, necessary, and clearly makes a significant contribution to the school. The majority of the leadership workforce will be in the effective area once they have a clear understanding of what the FPLS require and have made the adjustments and growth necessary to upgrade performance. The previous rating system of "satisfactory" and "unsatisfactory" does not provide any guidance as to where those who repeat past performance levels will fall in the shift to research and standards-based assessments. Both school leaders and evaluators should reflect on performance based on the new FPLS and the rubrics of the FSLA.

The "Highly Effective" level is reserved for truly outstanding leadership as described by very demanding criteria. Performance at this level is dramatically superior to "Effective" in its impact on students, staff members, parents, and the school district. Highly effective leadership results from recurring engagement with "deliberate practice." In brief, the "Highly Effective" leader helps every other element within the organization become as good as they are. In normal distributions, some leaders will be rated highly effective on some indicators, but very few leaders will be rated highly effective as a summative performance level.

The "Needs Improvement" level describes principals who understand what is required for success, are willing to work toward that goal, and, with coaching and support, can become proficient. Needs improvement rating will occur where expectations have been raised and standards made more focused and specific. Professional behavior and focused professional learning will guide school leaders toward increasingly effective performance.

Performance at the "Unsatisfactory" level describe leaders who do not understand what is required for proficiency or who have demonstrated through their actions and/or inactions that they choose not to become proficient on the strategies, knowledge bases, and skills sets needed for student learning to improve and faculties to develop.

Step Two: Rate each Proficiency Area.

Ratings on the indicators in a Proficiency Area are combined to assign a proficiency level (HE, E, NI, or U) to a Proficiency Area: The distribution of indicator ratings within a Proficiency Area result in a Proficiency Area Rating. Since the number of indicators in a Proficiency Area varies, the following formulas are applied to assign Proficiency Area ratings. For each Proficiency Area, use the appropriate table.

Table 1

For Proficiency Areas 1,2,5,7,9 and 10 with four Indicators , each Proficiency Area is rated:						
Highly Effectiv	Highly Effective (HE) if: three or more indicators are HE and none are less than E.					
Examples:	HE+HE+HE+HE= H	IE HE+HE+HE+E=H	HE			
Effective (E) if:	at least three ar	e E or higher and	no more than one are NI. None are U.			
Examples:	E+E+E+HE=E	E+E+E+NI=E	E+E+E+E=E			
Needs Improv	Needs Improvement (NI) if: Criteria for E not met and no more than one is U.					
Examples:	E+E+NI+NI=NI	HE+HE+NI+NI =NI	HE+E+U+NI=NI			
Unsatisfactory (U) if: two or more are U.						
Examples:	HE+U+U+HE=U	E+NI+U+U=U	E+E+U+U=U			

For the Proficiency Areas with fewer or more than four indicators, use the appropriate table below:

Table 2

For proficien	For proficiency Area 3 with six Indicators, each Proficiency Area is rated:					
Highly Effecti	ve (HE) if: four or more in	dicators are HE and no	ne are less than E.			
Examples:	HE+HE+HE+HE+HE=HE	HE+HE+HE+HE+	E+E=HE			
Effective (E) i	f: at least four are E or hig	ther and no more than	two are NI. None are	e U.		
Examples:	HE+HE+E+E+E+E=E	E+E+E+E+NI+NI=E				
Needs Impro	Needs Improvement (NI) if: Criteria for E not met and no more than two are U.					
Examples:	HE+HE+NI+NI+NI+NI=NI	NI+NI+NI+NI+U+U=NI	E+E+E+NI+NI+NI=NI	HE+HE+E+E+E+U=NI		
Unsatisfactory (U) if: two or more are U.						
Examples:	HE+HE+HE+U+U+U=U	NI+NI+NI+U+U+U=U (*up	dated 8/27/2012)			

Table 3

For Proficience	For Proficiency Area 4 with seven Indicators, each Proficiency Area is rated:				
Highly Effecti	ve (HE) if: five or more ind	icators are HE and none	e are less than E.		
Examples:	HE+HE+HE+HE+E+E=HE				
Effective (E) i	f: at least five are E or high	er and no more than tw	vo are NI. None are U.		
Examples:	HE+HE+E+E+E+NI+NI=E	E+E+E+E+HNI+NI=E			
Needs Impro	vement (NI) if: Criteria for	E not met and no more	than two are U.		
Examples:	E+E+E+E+NI+NI+NI=NI	HE+HE+E+E+E+U+U=NI	HE+HE+HE+HE+HE+U=NI		
Unsatisfactory (U) if: two or more are U.					
Examples:	HE+HE+HE+HE+U+U+U=U	NI+NI+NI+NI+U+U+U=U (*	updated 8/27/2012)		

Table 4

For Proficiency Area 6 with five Indicators , each Proficiency Area is rated:						
Highly Effective (Highly Effective (HE) if: four or more indicators are HE and none are less than E.					
Examples: H	HE+HE+HE+HE=HE	HE+HE+HE+E=HE				
Effective (E) if: at	least four are E or higher and	no more than one are NI. None are U.				
Examples: E	+E+E+E+E=E HE+HE+E+E=E	HE+E+E+NI=E E+E+E+NI=E				
Needs Improvem	nent (NI) if: Criteria for E not m	et and no more than one is U.				
Examples: H	HE+HE+NI+NI+NI=NI E+E+NI+	NI+U=NI NI+NI+NI+U=NI				
Unsatisfactory (U	J) if: two or more are U.					
Examples: F	HE+HE+HE+U+U=U NI+NI+NI+U+U	J=U				

Table 5

For Proficiency Area 8 with three Indicators, each Proficiency Area is rated:						
Highly Effecti	Highly Effective (HE) if: two or more indicators are HE and none are less than E.					
Examples:	HE+HE+HE=HE	HE+I	HE+E=HE			
Effective (E) i	f: two or more a	are E or higher a	and no mo	re than	one is NI. None are U.	
Examples:	E+E+E=E E	+E+HE=E E+H	E+NI=E	HE+HE	+NI=E	
Needs Improvement (NI) if: Criteria for E not met and no more than one is U.						
Examples:	NI+NI+NI=NI	NI+NI+U=NI	HE+E+	U=NI	HE+NI+NI=NI	
Unsatisfactory (U) if: two or more are U.						
Examples:	HE+U+U=U	NI+U+U=U				

When you have a rating (HE, E, NI, or U) for each Proficiency Area in a Domain, you then generate a Domain rating.

Step Three: Rate Each Domain.

Domains are rated as HE, E, NI, or U based on the distribution of ratings on Proficiency Areas within the Domain. The tables below provide rating criteria for each FSLA Domain.

Table 6

Domain Rating	Domain I: Student Achievement (Two Proficiency Areas)
Highly Effective if:	Both Proficiency Areas rated HE
Effective if:	One Proficiency Area rated HE and one Effective, or
	Both rated Effective
Needs Improvement if:	One Proficiency Area rated HE or E and one rated NI or U
	Both Proficiency Areas rated NI
Unsatisfactory if:	One Proficiency Area rated NI and the other is rated U
	Both are rated U

Table 7

Domain Rating	Domain 2: Instructional Leadership (Three Proficiency Areas)
Highly Effective if:	All three Proficiency Areas are HE
	Two Proficiency Areas rated HE and one E
Effective if:	Two Proficiency Area rated E and one Effective or NI
	All three Proficiency Areas rated E
Needs Improvement if:	Any two Proficiency Areas rated NI
	One Proficiency Area rated NI, one Proficiency Area rated U and
	one Proficiency Area rated E or HE
Unsatisfactory if:	Two or more Proficiency Areas rated U

Table 8

Domain Rating	Domain 3: Organizational Leadership (Four Proficiency Areas)
Highly Effective if:	All four Proficiency Areas are HE
	Three Proficiency Areas rated HE and one E
Effective if:	Two Proficiency Areas rated E and two rated HE
	All four Proficiency Areas rated E
	Three Proficiency Areas rated E and one rated either NI or HE
Needs Improvement if:	Two Proficiency Areas rated E and two rated NI
	Any three Proficiency Areas rated NI
	One Proficiency Area rated NI, one Proficiency Area rated U and
	two Proficiency Area rated E or HE
Unsatisfactory if:	Two or more Proficiency Areas rated U

Table 9

Domain Rating	Domain 4: Professional Behaviors (One Proficiency Area)
Highly Effective if:	If Proficiency Area 10 rated HE

Effective if:	If Proficiency Area 10 rated E
Needs Improvement if:	If Proficiency Area 10 rated NI
Unsatisfactory if:	If Proficiency Area 10 rated U

When you have determined Domain ratings, you then combine those ratings to generate an FSLA score.

Step 4: Calculate the FSLA Score.

- In Step One, proficiency ratings for indicators were made based on an assessment of available evidence and the rating rubrics.
- In Step Two, the apportionment of Indicators ratings, using the tables provided, generated a rating for each Proficiency Area within a Domain.
- In Step Three, Domain ratings were generated. All of these steps were based on evidence on the indicators and scoring tables.

At the FSLA scoring stage the model shifts to a weighted point system. Points are assigned to Domain ratings, direct weights are employed, and scores are converted to a numerical scale. The following point model is used:

Table 10

DOMAIN RATING	POINTS ASSIGNED		
A Domain rating of Highly Effective	4 points		
A Domain rating of Effective	3 points		
A Domain rating of Needs Improvement	2 point		
A Domain rating of Unsatisfactory	1 points		

The Domain points are multiplied by the Domain's direct weight: The rating is entered in column 2 ("Rating"), the points in column 3 ("Points"), and a weighted score calculated in column 5.

Table 11

Domain	Rating	Points	Weight	Domain
				Weighted Score
Domain I: Student Achievement			.20	
Domain 2: Instructional Leadership			.40	
Domain 3: Organizational Leadership			.20	
Domain 4: Professional and Ethical Behavior			.20	

Example

Table 12

Domain	Rating	Points	Weight	Domain Weighed Score
Domain I: Student Achievement	HE	4	.20	.8
Domain 2:Instructional Leadership	E	3	.40	1.2

Domain 3:Organizational Leadership	HE	4	.20	.8
Domain 4: Professional & Ethical Behavior	NI	2	.20	.4

After a Domain Weighted Score is calculated, the scores are converted to a 100 point scale. This process results in a FSLA Score range of 0 to 300 Points.

This table illustrates the conversion of a Domain Weighted value to a 100 point scale.

Example

Table 13

Domain	Rating	Points	Weight	Weighed value
Domain I	HE	4	.20	.8
Student Achievement				
Domain 2	Е	3	.40	1.2
Instructional Leadership				
Domain 3	HE	4	.20	.8
Organizational				
Leadership				
Domain 4	NI	2	.20	.4
Professional and Ethical				
Behavior				
FSLA Score				3.2

The Domain scores are added up and an FSLA score determined. The FSLA Score is converted to an FSLA rating of HE, E, NI, or U based on this scale:

Table 14

FSLA SCORE	FSLA Proficiency Rating
3.20 - 4.00	Highly Effective
2.00 - 3.10	Effective
1.00 – 1.99	Needs Improvement
0.0099	Unsatisfactory

The FSLA score is combined with a Deliberate Practice Score to generate a Leadership Practice Score. Section Three provides scoring processes for Deliberate Practice.

The FSLA score will be 90% of the Leadership Score.		
The Deliberate Practice Score will be 10% of the Leadership Practice.		

3. Other Indicators of Performance

Deliberate Practice: The leaders work on specific improvements in mastery of educational leadership is a separate metric and is combined with the FSLA Domain Scores to determine a summative leadership score. Deliberate Practice will be 10% of the overall evaluation score.

Deliberate Practice (DP) Proficiency Area(s) and Target(s) for School Leader Growth

<u>Deliberate Practice Priorities</u>: The leader and the evaluator identify 1 to 4 specific and measurable priority learning goals related to teaching, learning, or school leadership practices that impact student learning growth. One or two targets are recommended.

- The target of a deliberate practice process describe an intended result and will include "scales" or progress points that guide the leader toward highly effective levels of personal mastery;
- The leader takes actions to make discernible progress on those priority goals; monitors progress toward them, uses the
 monitoring data to make adjustments to practice, and provides measurable evidence of growth in personal mastery of
 the targeted priorities.
- The evaluator monitors progress and provides feedback.
- The targets are "thin slices" of specific gains sought not broad overviews or long term goals taking years to accomplish.
- Deliberate practices ratings are based on comparison of proficiency at a "start point" and proficiency at a designated "evaluation point". The start point data can be based on a preceding year FSLA evaluation data on a specific indicator or proficiency area, or determined by school leader and evaluator either at the end of the preceding work year or at the start of the new work year in which the DP targets will be used for evaluation.

Relationship to other measures of professional learning: Whereas FSLA indicator 4.5 addresses the leader's involvement with professional learning focused on faculty needs and indicator 10.2 addresses the leader's pursuant of learning aligned with a range of school needs, the Deliberate Practice targets are more specific and deeper learning related to teaching, learning, or school leadership practices that impact student learning. The DP learning processes establish career-long patterns of continuous improvement and lead to high quality instructional leadership.

Selecting Growth Targets:

Growth target 1: An issue that addresses a school improvement need related to student learning and either selected by the district or approved by leader's supervisor. The focus should be on complex issues that take some time to master such as providing observation and feedback of high-effect size instructional practices.

Growth target 2: An issue related to a knowledge base or skill set relevant to instructional leadership selected by leader). Growth target 3-4: Optional: additional issues as appropriate.

• The addition of more targets should involve estimates of the time needed to accomplish targets 1 and 2. Where targets 1 and 2 are projected for mastery in less than half of a school year, identify additional target(s).

The description of a target should be modeled along the lines of learning goals.

- A concise description (rubric) of what the leader will know or be able to do
- Of sufficient substance to take at least 6 weeks to accomplish
- Includes scales or progressive levels of progress that mark progress toward mastery of the goal.

Rating Scheme

- Unsatisfactory = no significant effort to work on the targets
- Needs Improvement = evidence some of the progress points were accomplished but not all of the targets
- Effective = target accomplished
- Highly effective = exceeded the targets and able to share what was learned with others

Sample:

Target: Leader will be able to provide feedback to classroom teachers on the effectiveness of learning goals with scales in focusing student engagement on mastery of state standards.

Scales:

Level 3: Leader develops and implements a process for monitoring the alignment of classroom assessments to track trends in student success on learning goals.

Level 2: Leader develops and implements a process for routinely visits classes and engaging students in discussion on what they are learning and compares student perceptions with teacher's learning goals.

Level 1: Leader can locate standards in the state course description for each course taught at the school and completes the on-line module on Learning Goals (both at www.floridastandards.org) and engages teachers in discussion on how they align instruction and learning goals with course standards.

2.
3

Notes:			

Deliberate Practice Score

- The DP score is 10% of the Leadership Practice Score.
- The DP metric will have 1 to 4 specific growth targets.
- Each target will have progress points (much like a learning goal for students).
- The targets will have equal weight and the leader's growth on each will be assessed as HE, E, NI, or U.

Table 15

Scoring a DP Growth Target	Rating Rubrics
Highly Effective	Target met, all progress points achieved, and verifiable improvement
	in leaders performance
Effective	Target met, progress points achievesimpact not yet evident
Needs Improvement	Target not met, but some progress points met
Unsatisfactory	Target not met, nothing beyond 1 progress point

A DP Score has an upper limit of 4 points. Each target is assigned an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

Table 16

Number of growth targets	Maximum points per target	Maximum Point Range
One Target	4	4
Two Targets	2 (4/2)	4 (2 x 2)
Three Targets	1.33 (4/3)	4 (1.33 x 3)
Four Targets	1 (4/4)	4 (1 x 4)

Target values based on Rating (HE, E, NI, or U) and Number of Targets.

This chart shows the points earned by a growth target based on a rating Level (HE, E, NI, or U) <u>and</u> the total number of targets in the DP plan.

Table 17

Rating	Point values	If 1 target	If 2 targets	If 3 targets	If 4 targets
HE	max points	4	2	1.33	1
Е	.80 of max	3.20	1.60	1.06	.80
NI	.5 of max	2	1	.67	.5
U	.25 if some progress	1	.50	.33	.25

A DP score is based on ratings of the targets and the points earned for each rating.

Deliberate Practice rating

Table 19

DP Score Range	DP Rating
4	Highly Effective
3.20	Effective
2	Needs Improvement
1	Unsatisfactory

Summary

90% of the Leadership Practice Score is based on the Florida School Leader Assessment Proficiency Score.

10% of the Leadership Practice Score is based on the Deliberate Practice Growth Score.

Α.	FLSA	SCO	RE:
<i>,</i>	, \	\mathcal{I}	

B. Deliberate Practice Score:

C. Add scores from calculations A and B above to obtain Leadership Practice Score

Leadership Score Range	Leadership Practice Rating
3.20 - 4.00	Highly Effective
2.00 - 3.10	Effective

1.00 – 1.99	Needs Improvement
0.0099	Unsatisfactory

4. Summative Evaluation Score

The performance standards used to determine the summative evaluation rating are described in Sections 1-3. The summative scoring system is described below.

How	to	Calculate an	Annual	Performance I	Level
-----	----	--------------	---------------	---------------	-------

Step 1: Find 90% of the FLSA Score	_ x 0.9 =
Step 2: Find 10% of the Deliberate Practice so	corex 0.1 =

Step 3: Add the weighted Deliberate Practice and FLSA scores to determine the Leadership Practice score. The Leadership Practice score will constitute 5067%[PP1] of the summative evaluation.

Leadership Practice Score = <u>(FLSA Score x 0.9)</u> + <u>(DP Score x 0.1)</u>

Step 4: Add the Leadership Practice score to the student growth measure to determine the summative performance score. Principals will receive a rating based on the following chart:

Performance Score ranges	Performance Level Rating
3.20 - 4.00	Highly Effective
2.00 - 3.10	Effective
1.00 – 1.99	Needs Improvement
0.0099	Unsatisfactory

The seven steps of the FSLA are described below:

5. Additional Requirements

The immediate supervisor at the district level or the school principal will conduct the employee's evaluation.

The Taylor County School District provides timely feedback to the individuals being evaluated by providing written documentation of their evaluation no later than 10 days after the evaluation takes place. At any time in the performance assessment cycle that performance is considered to need improvement, a professional development assistance plan, complete with assistance and time frame for correction will be established.

In Taylor County the evaluation system data will be used to plan professional development activities for the district.

Administrators that have been evaluated as less than effective will be required to participate in specific professional development.

Taylor County School District administrators will be evaluated at least once a year.

The Taylor County School District conducts an annual climate survey in each school building giving personnel the opportunity to provide input about the administrator and their school. The results are used to evaluate administrator leadership practice at the evaluator's discretion.

The Taylor County School District provides parents with a standard process through a survey to utilize for the purpose of input. The supervisor decides how much weight is given to the parent input information. A copy of the results is made available to the administrator.

The Taylor County School District provides training on the district evaluation system each summer to those evaluated and those doing the evaluations and the processes to use, including:

- Self-reflections on practices that improve one's work
- How to provide both recurring feedback and summative performance ratings
- Evaluation Criteria
- Data sources
- Methodologies associated with this evaluation system
- Proper use of the evaluation criteria and procedures

6. <u>District Evaluation Procedures</u>

The Taylor County District school leaders' evaluators must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract. The evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place. The evaluator must discuss the written evaluation report with the employee. The administrator shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.

The Superintendent will annually notify the FLDOE of any instructional personnel or school administrators who receive two consecutive unsatisfactory evaluations.

7. District Self-Monitoring

Taylor County School administrators will take part in an inner rater reliability training conducted through contract with Cambridge Education. These trainings have taken place annually to ensure that evaluators have an understanding of the proper use of the evaluation criteria and procedures.

All Taylor County evaluators are expected to provide the written report of their evaluation no later than 10 says after their evaluation takes place.

All Taylor County District policies and procedures must be followed by those evaluators in the implementation of the evaluation system.

The Taylor County School District participates in Professional Development activities as outlined in the PAEC Master Inservice Plan. The district works with PAEC to identify areas for development and administrators participate in those activities. Results from performance appraisals are used to identify the professional development activities the principal is to participate in. Reviews of student achievement data is used to determine the effectiveness of staff development taking place during the year, as well as influencing staff development to be included in School Improvement Plans, District Improvement Plans, IPDPs and ILPDs.

The district personnel and principals meet annually to review the Administrative Evaluation System to determine compliance with the Florida Statute. The team usually meets in the summer of each year to evaluate the effectiveness of the system. During the review, the team determines if:

- The evaluator understands of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.
- The evaluator provides necessary and timely feedback to the employees being evaluated.
- The use of evaluation data is used to identify individual professional development.
- The use of evaluation data is used to inform school and district improvement plan.

The team looks at the performance evaluation results from the prior school year for all instructional personnel using the four levels of performance. The performance evaluation results for instructional personnel are disaggregated by classroom teacher and all other instructional personnel; by school site; and by instructional level. School grades and state and local assessment data are also reviewed by school and district and compared to the performance evaluation data. Results of this data analysis are used by individual schools and the district to set school improvement goals and plan for individual, school and district professional development activities.

Changes and revisions to the teacher evaluation system will be recommended. All substantial revisions will be reviewed and approved by the district school board before being used to evaluate teachers.
