

# Joint Information Center on COVID-19 for the State of Florida

FOR IMMEDIATE RELEASE November 13, 2020

Contact: Joint Information Center on COVID-19 for the State of Florida (850) 815-4940, [ESF14@em.myflorida.com](mailto:ESF14@em.myflorida.com)

## Florida Department of Health Issues Daily Update on COVID-19

TALLAHASSEE — Beginning next week, this press release will be issued once per week on Fridays. The COVID-19 daily reports will continue to be updated daily and the Florida Department of Health COVID-19 Dashboard will also continue to be updated daily. Please find all daily reports [here](#).

### Hospitalizations:

Today, data reported to the Agency for Health Care Administration shows that the number of COVID-19 positive patients that are currently hospitalized is down more than 70 percent since July. As posted on the Agency for Health Care Administration's hospitalization [dashboard](#) at 2:15 p.m., there are 3,100 current hospitalizations with a primary diagnosis of COVID-19.

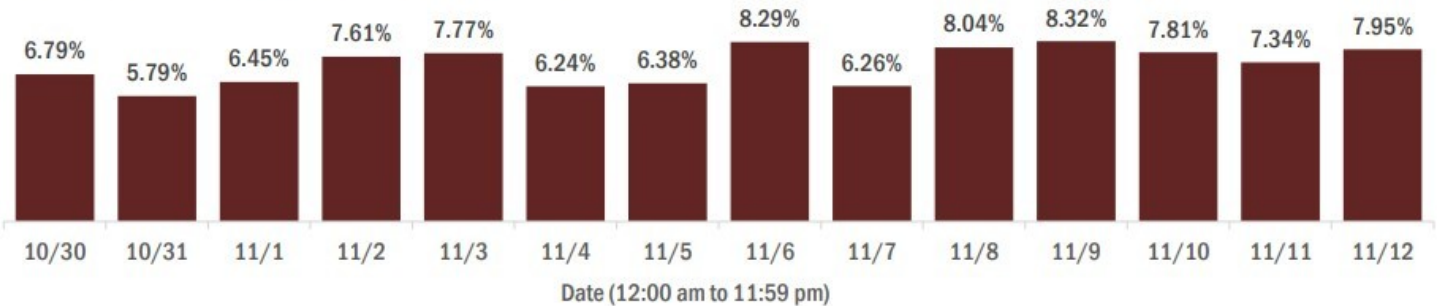

### Positive test results:

- Yesterday's statewide positivity rate for new cases is 7.95 percent.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 5.79% to 8.32% over the past 2 weeks and was 7.95% yesterday.

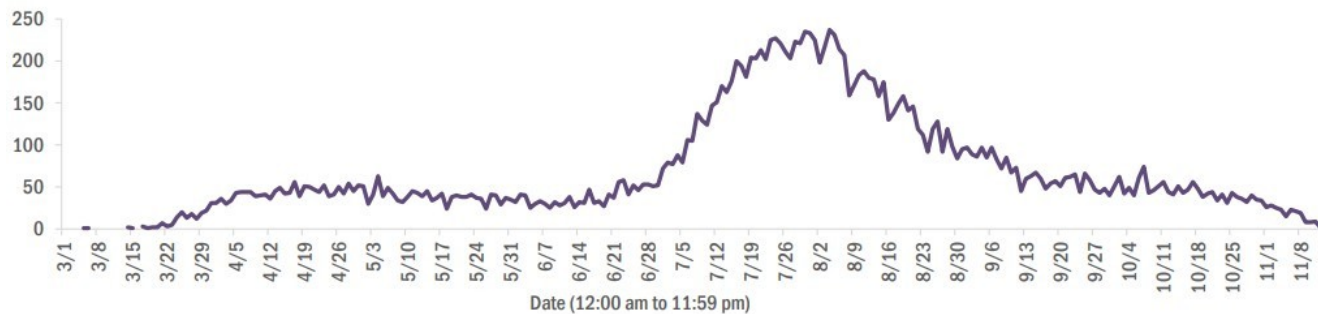

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

### Fatalities by date of passing:

Today, data reported to DOH shows there has been a steady decline in the number of reported Florida resident deaths who were previously diagnosed with COVID-19. The second week of August compared to the second week of September, shows a 74 percent decrease in the average number of reported COVID-19 related deaths.

### Deaths by date of death since March 2020

### Florida long-term care facility data:

- The list of long-term care facilities with active COVID-19 cases is available [here](#).
- The list of long-term care facilities with deaths is available [here](#), which is updated weekly.
- To date, 6,976 individuals that were staff or residents of a long-term care facility have died.

### Overall testing:

- Yesterday, test results for more than 94,700 individuals were reported to DOH.
- As of November 13, 870,552 individuals have tested positive for COVID-19 in Florida.

In order to make the daily COVID-19 report easier to download and more accessible, the daily report separates case line data in a

separate PDF. The case line data report is available [here](#). The state also provides a report detailing surveillance data for every Florida county, which is available [here](#). The antibody COVID-19 test results report will be provided once a week and contains county, race and lab information on antibody COVID-19 tests conducted in Florida. The report for antibody tests conducted by private health care providers is available [here](#) and the report for antibody tests conducted at state-supported COVID-19 testing sites is available [here](#). **More information on a case-by-case basis can also be found [here](#).**

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated [COVID-19 webpage](#). For information and advisories from Centers for Disease Control and Prevention (CDC), please visit the [CDC COVID-19 website](#), this website is also available in Spanish and Creole. For more information about current travel advisories issued by the U.S. Department of State, please visit the [travel advisory website](#).
