

Solve each problem.

Answers

- 1) Oliver had to wash thirty-nine short sleeve shirts and forty-seven long sleeve shirts before school. If he had only washed twenty of them by the time school started, how many did he not wash?
- 2) For the school bake sale Wendy made pastries. She baked four cupcakes and twenty-nine cookies. After the sale she had twenty-four to take back home. How many pastries did she sell?
- 3) While on vacation, Debby took twenty-four pictures at the zoo and twelve at the museum. If she later deleted fourteen of the pictures, how many pictures from her vacation did she still have?
- 4) Katie picked three tulips and nine roses to make flower bouquets. If she only used ten of the flowers though, how many extra flowers did Katie pick?
- 5) Faye had forty-six math problems and nine science problems for homework. If she finished forty of the problems at school, how many problems did she have to do for homework?
- 6) Amy had four music files and twenty-one video files on her flash drive. If she deleted twenty-three of the files, how many files were still on her flash drive?
- 7) Ned was trying to expand his game collection. He bought eleven games from a friend and bought twenty-two more at a garage sale. If nineteen of the games didn't work, how many good games did he end up with?
- 8) Chloe was playing a trivia game. In the first round she scored forty points and in the second round she scored fifty points. In the last round she lost four points. How many points did she have at the end of the game?
- 9) At the arcade, Tom won thirty-two tickets playing 'whack a mole' and twenty-five tickets playing 'skee ball'. If he spent seven of his tickets on a hat, how many tickets does Tom have left?
- 10) Bianca and her mom were picking carrots from their garden. Bianca picked twenty-six and her mother picked fifteen. If only sixteen of the carrots were good, how many bad carrots did they have?
