SAFETY IN CAREER TECHNICAL CLASSES

4.82

In order to ensure safety of students and personnel in Alexander City School System Career/Technical education classes, all laws, regulations, and guidelines established by local, state, and federal agencies shall be followed.

Alexander City School System teachers in career/technical classes shall establish safe working conditions and shall promote the development of safety awareness and safe work habits by students. Safety procedures and safe work habits shall be taught and tested in all career/technical classes as specified in the Alabama Course of Study for each content area.

A safety plan shall be posted in each career/technical classroom and shall include methods for encouraging safe procedures in the following areas:

- Continuous supervision of students in the classroom, laboratory, and/or shop environment
- Ensuring that protection devices are worn by students when appropriate.
- Safe storage of toxic, flammable, or hazardous materials.
- Safe use of electrical devices and avoiding electrical hazards.
- Safety demonstrations, safety instruction, and testing for safety knowledge.
- Periodic inspection of materials, equipment, and tools to ensure safe use.

The goals of safety instruction are to keep students safe while participating in career/technical programs and for transfer of this knowledge to the work place.
