Virtual Learning Enrollment

Updated 9-9-2020

Student Name _____ Grade Level _____

We request enrollment in the virtual program listed below:

Information/Expectations

- I understand that families are responsible for ensuring that students have reliable internet access that is necessary for successful completion of virtual coursework.
- I understand that families are responsible for supplying a device, if one is not supplied by the virtual provider, and that East Carter will not be responsible for providing tech support.
- I understand that, while there may be some flexibility in the timing of work, students should expect to spend a significant portion of each school day engaged with their virtual classes. The number of hours required to successfully complete virtual classes is similar to the number of hours required for traditional coursework. (This includes time spent on-line and time offline completing assignments, projects, and activities.)
- I understand that it is the responsibility of the student and parent/guardian to communicate with the teacher of the virtual class(es) in order to get needed assistance and cooperate with grading and evaluation. I understand that active progress and communication are necessary for the continued enrollment in and successful completion of virtual classes.
- I understand that all East Carter policies regarding credit requirements and acquisition will apply, as will policies regarding academic honesty, and the school discipline code.

- I understand that by choosing full-time virtual enrollment, students are not eligible for any extracurricular activities.
- I understand that East Carter will not enroll students in virtual coursework that would cause them to exceed the traditional school course load.
- I understand that grades provided through this virtual coursework will be reported on East Carter report cards and become part of the student's academic record. For this reason, and for the sake of continuity in learning, I understand that it is recommended that elementary students remain enrolled in virtual coursework until the end of the academic quarter, and that middle and high school students maintain enrollment until the end of the academic semester.
At any point that a student's virtual enrollment is discontinued, the grades from virtual coursework will be transferred to the appropriate East Carter class.
- If I wish for my child to return to in person attendance at East Carter before the end of the academic period, I will need to request a meeting with the building administrator to make arrangements for the students' return.
- Failure to make adequate progress in virtual classes or requesting early withdrawal may result in denial of future virtual enrollment.
- I understand that students taking virtual classes are still required to participate in all required state assessments.
