

4th Grade Newsletter

November 26-27 and December 3-6

Mathematics: Mrs. Pinkerton and Mrs. Coleman

SKILLS:

We will work on these standards:

4.NBT.5 Multiply a whole number of up to four digits by one digit whole number, and multiply two 2 digit numbers, using strategies based on place value and the properties of operations. Illustrate and explain the calculations by using equations, rectangular arrays, and/or area models.

4.G.1 Draw points, lines, line segments, rays, angles (right, obtuse, straight, and acute) and parallel and perpendicular lines. Identify them in two dimensional shapes.

We will have a test over multiplying large numbers on November 27. When we return from Thanksgiving break, we will begin a unit on geometry.

Language Arts- Mr. Reese and Mrs. Coleman

Ohio Standards:

Key Ideas and Details

RI.4.1 Refer to details and examples from the text when answering literal and inferential questions.

RL.4.2 Analyze text to determine theme.

RL.4.3 analyze story elements

For the next two weeks we will not have spelling and vocabulary words. We will be working hard in our Ohio Standards Workbook for reading.

There will be no school from November 27 through December 2. School will resume on Tuesday, December 3rd.

Social Studies and Science – Mrs. Pierce and Mrs. Coleman

Social Studies - Chapter 7 Ohio as America - American Revolution

Standards Addressed :

- 1.The order of significant events in Ohio and the United States can be shown on a timeline.
2. Primary and secondary sources can be used to create historical narratives.
4. The 13 colonies came together around a common cause of liberty and justice, uniting to fight for independence during the American Revolution and to form a new nation.

Science

4.ESS.1 Earth's surface has specific characteristics and landforms that can be identified.

About 70 percent of the Earth's surface is covered with water and most of that is the ocean. Only a small portion of the Earth's water is freshwater, which is found in rivers, lakes and groundwater.

Earth's surface can change due to erosion and deposition of soil, rock or sediment. Catastrophic events such as flooding, volcanoes and earthquakes can create landforms.

Students will be constructing a landform in class. Some supplies are available at school. It is not necessary to purchase supplies for this project. I am encouraging students to use items they may have at home and the supplies at school.

Homework for the Fourth Grade

<u>Language Arts</u>	<u>Math</u>	<u>Science/ Social Studies</u>
None	Monday(11/26) No HW Tuesday(11/27) No HW Tuesday (12/3) Math Set Wednesday (12/4)-No HW Thursday-(12/5) No HW Friday-(12/6)No HW	Monday- No HW Tuesday- No HW Tuesday - No HW Wednesday-Social Studies Worksheet Thursday - Science Worksheet Friday- No HW

Interim Reports go home on Friday, December 6.
