Ashland Elementary Feb. 1ST – Feb. 5th Week 23

Math Skills

Geometry:

Standards: 6.G.1 - Find the area of triangles, quadrilaterals, and polygons by composing into rectangles or decomposing into triangles and other shapes.

6.G.2 - Find the volume of a right rectangular prism with fractional edge lengths by packing it with unit cubes of the appropriate unit fraction.

6.G.3 - Draw polygons in the coordinate plane given coordinates for the vertices; use coordinates to find the length.

6.G.4 - Represent three-dimensional figures using nets and use the nets to find the surface area of these figures.

5th Grade Measurement & Data:

5.MD.1 - Convert different-sized standard measurement units within a given measurement system, and use these conversions in solving multi-step, real world problems.

5.MD.2 - Make a line plot to display a data set of measurements in fractions of a unit (1/2, 1/4, 1/8).

5.MD.3 - Recognize volume as an attribute of solid figures and understand concepts of volume measurement. (3a) - Understand how a cube with side length 1 unit, called a "unit cube" can be used to measure volume. (3b) - A solid figure which can be packed without gaps or overlaps using unit cubes have a volume of cubic units.

5.MD.4 - Measure volumes by counting unit cubes, using cubic cm, cubic in, cubic ft. and improvised units.

5th & 6th Grade Reading

Fluency: Lyrics@Learn is our new fluency program. Students are required to listen/read a passage 3 times a day for 4 days a week and answer increasingly difficult questions as the days progress. This program has students reading an average of 20 minutes a day and is improving their oral reading fluency every second they spend reading!

Vocabulary: Students are required to spend 20 minutes every day on Moby Max Vocabulary. They are working on their own level and increasing their word capacity by at least 10 words a week!
