## Agreement of Support for Tennessee Scholars

I \_\_\_\_\_ (parent or guardian) understand that the Tennessee Scholars requirements will help my child be more successful in college and careers. I approve the Tennessee Scholars path for my child and will support and encourage my child to excel academically, stay in school, adhere to the school district rules and regulations for discipline, and complete the required volunteer service to my community that is required to graduate as a Tennessee Scholar. I also understand that by graduating as a Tennessee Scholar will help my child to afford post secondary education. If I allow my child to drop out of this program, I understand they are forfeiting scholarships, recognition, possible job opportunities, and a distinction of excellence given by the state of Tennessee.
