School Profile

Maine Prairie High School (MPHS) is an alternative continuation high school serving students in the Dixon Unified School District. Founded in 1977, MPHS was originally located on the grounds of the Dixon May Fair. MPHS moved to its current all-portable site in 1992. The 2009-10 school year was the first year the continuation high school was in a position to serve 100 students. Historically, the school has served 80 students with a contractual 20:1 teacher-student ratio.

Parental Involvement

There are many ways for families and community members to be involved at Maine Prairie. We welcome classroom volunteers and encourage parents to participate in our school site council and ELAC meetings. .

School Safety

In time of disaster or crisis, our main purpose is to safeguard our students from physical and emotional harm as much as possible. In an emergency situation, panic can be one of the greatest dangers to students. An informed, professional staff can help allay the fears which bring about this panic. All school staff members are familiar with the school's emergency response plan and are responsible for training students in the emergency procedures. Prevention strategies at Gretchen Higgins include the posted reminder for all visitors to sign in at the office, the use of visitor's badges, and sign-in sheets for all volunteers. A Drop, Evacuation, or Lockdown drill is held at least once a month, and may occur at any time of the school day. Parents are made aware annually that, in a crisis, school will likely remain open and the school has a plan to care for their children until it is appropriate for them to be picked up. Emergency and first aid supplies are available in designated locations and are checked and replaced annually. During a disaster, staff will remain on duty as needed.

School Facilities

Maine Prairie High School facility meets state requirements on a school facility. The Dixon Unified School District along with North Bay Insurance performs yearly safety inspections with the purpose of identifying and correcting any and all safety issues and concerns. Above and beyond the daily cleaning standards done by the custodial, the district schedules a thorough deep cleaning of classrooms on a regular basis. All classrooms/spaces have internet access and phones.

Date of last inspection: February 2013

Curriculum & Instructional Materials

All English Language Arts classes have current state adopted textbooks and materials (MacMillan/McGraw, 2011). In Mathematics all classes have current state approved textbooks and materials (Houghton Mifflin/McDougal Littel). Science classes have current state adopted textbooks and materials (Harcourt/Holt). History-Social Science classes have current (9/06) state adopted textbooks and materials (Harcourt). Quality of all materials is reviewed annually and replacements are ordered. All classes have sufficient materials and reviewed annually to reach compliance with the Williams Act.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement if they do not make AYP for two consecutive years in the same content area (ELA/Math) or the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year they do not make AYP. Detailed information about PI identification can be found at the CDE AYP web page: www.cde.ca.gov/ta/ac/ay.

Core Academic Class Taught by No Child Left Behind Compliant Teachers (2012-13 School Year)

This table displays the percent of classes in core academic subjects taught by No Child Left Behind (NCLB) compliant and non-NCLB compliant teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High poverty schools are defined as those schools with student participation of approximately 75 percent or more in the free and reduced price meals program. Low poverty schools are those with student participation of approximately 25 percent or less in the free and reduced price meals program. More information on teacher qualifications required under NCLB can be found on the CDE Improving Teacher and Principal Quality Web page at <http://www.cde.ca.gov/nclb/sr/tq/>.

Adequate Yearly Progress

The NCLB requires that all schools and districts meet the following AYP criteria:

- Participation Rate on the state's standards-based assessments in English-Language Arts and mathematics
- Percent Proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information regarding AYP can be found at www.cde.ca.gov/ta/ac/ay/

Standardized Testing and Reporting Results for All Students – Three Year Comparison

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CST's); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CST's show how well students are doing in relation to the state content standards. The CST's include English-language Arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CST's with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations or modifications of the CMA with accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>.

Data Access

DataQuest:

DataQuest is a search engine located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, county and the state. DataQuest allows parents and community members to access accountability reports such as; API, AYP, test data, enrollment, graduates, course enrollments, staffing and data pertaining to English Learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
