

Interactive Websites For Kindergarten Through Fifth Grade

All Grades

[National Library of Virtual Manipulatives](#)

Activities on this site are divided into activities by age group. Math activities range from simple patterns to data analysis and probability. Students can do these activities on their own or the teacher could do these activities with the whole class. These interactive activities are perfectly suited for the SmartBoard.

[Funbrain](#)

Kids in grades K-5 will enjoy these games. Games can be searched by grade level. Try out Word Confusion to practice those SAT skills.

[Prongo](#)

Be sure and check out Lemonade Larry for some multiplication practice. These activities are divided by grade level. Some preschool games are included.

[Scholastic](#)

Interactive games are divided by tabs. Scholastic has tons of content; there is something here for everyone! Not only are there games but also interactive books with quizzes.

Preschool

[Northumberland Grid for Learning](#)

Look at these activities just for Preschool. These early learning activities are perfect for practicing mouse and "drag and drop" computer skills. Try these with the SmartBoard.

Kindergarten - Second Grade

[Heritage Explorer](#)

Need some interactive activities for your SmartBoard? Download these activities. They will work with your Notebook software for the SmartBoard.

[Northumberland Grid for Learning](#)

Math Activities on this site range from simple counting to addition and subtraction.

Third Grade - Fifth Grade

[Wonderville Interactive Learning Activities](#)

These learning activities are for grades three through five. Water purification and tree identification are two of the science activities located on this site.

[Clever Colin's Coffee Conundrum](#)

Kids in grades 3-5 will enjoy this conundrum. Solve the conundrum to decide what kind of coffee Colin likes to drink.

[Wiley Physical Geology](#)

Lots of grade levels would be interested in the Solar System listed in Chapter 1. Label the planets then print it for a study guide. These interactive activities are self-correcting.

[British Council Words](#)

Puzzle out this family tree by following out the word clues. This "reading for meaning" activity would be great with the SmartBoard.

[British Council Grammar Games](#)

Need a little extra SAT practice? You will find lots of word games at this site.
