Lewisburg Middle School Parents,

Due to Governor Reeves executive order limiting capacity at all indoor athletic events, attendance to basketball games will be limited to two adults per student athlete. Each student athlete will be provided two passes that will allow two visitors to purchase a single ticket each. Siblings of our student athletes will be able to attend only with a ticket bearing adult. No other students will be allowed to attend the basketball games. These same guidelines will be followed by our cheer and dance squads as well. We understand the hardship this will put on some families that would like to support their player, especially our blended and extended families. Please know that we want the best and safest possible experience for our athletes and fans.

While attending all of our athletic events, we ask that everyone social distance to the greatest extent possible. Masks are also required for fans when attending events. This includes going to and from the concession stand and restrooms.

We appreciate your continued support of Lewisburg Middle School and our student athletes as we work through these challenging times.

Sincerely,

Brad Meadows
