

Hour of Code

December 9th through the 13th, all computer classes at Schaghticoke will be using simple tutorials designed as an introduction to computer science. The Hour of Code is an International event designed to get as many people as possible to try a bit of coding. Students who are not currently taking computer class (Technology) can participate in one of two ways.

1. Students can ask me for a link to the tutorial site and try coding at home (tutorials are completely self contained) OR
2. Students can remain after school Wednesday 12/11 and complete the activity here.

Mrs. Morrison
SMS Technology Teacher

I give permission for my child _____

to stay after school on December 11th to participate in the Hour of Code program. I understand that I am responsible for arranging transportation home for my child at 3:35.

Please sign and
return by
December 9th.
