

Need information about education in the state of Florida...

<http://www.fdoe.org/>

**Thank you for your interest in education in Florida.**

Whether you live in Florida, are considering moving here, or are just visiting, you may not be aware of the high marks the Sunshine State earns for its public education system. Just last year, Florida ranked first in the nation for teacher quality, first in the nation in advanced placement participation, and first in the southern region for graduation rate and degrees awarded by the Florida College System. Florida's fourth graders ranked second in the world, just behind fourth graders in Hong Kong, on an international reading assessment. *US News & World Report* included four Florida magnet high schools in its top 10 magnet high school list. *Newsweek* named two Florida high schools in its top 10 list and *Education Next* ranked Florida second in the nation in educational progress over the past 10 years.

Floridians have a lot to be proud of when it comes to education.
