Student Health

In the event of an injury occurring at school, first aid will be administered to the child. If the situation is serious enough to warrant medical attention, parents will be notified immediately and, when necessary, professional emergency personnel will be called.

In the event of a child becoming ill at school, parents will be notified and arrangements will be made to have the child picked up and taken home.

Medication of any kind will NOT be given to students at school unless a Medication Consent Form has been completed and signed by a parent and is on file in the school office. Copies of this form are available through the school office upon request. Any authorized medication should be brought to school in its original container with labeled instructions clearly visible. All medication to be given to students by school personnel must be given to the school office.
