

Course Syllabus
6th Grade History - Ancient Civilizations
Mr. Tony Drieling / Ms. Camille Kemp / Mr. Clint Ellis

Course Description: Sixth grade students will study the beginning of early civilizations through the fall of the Roman Empire. Students will study the geographical, social, religious, economic, and political foundations for early civilizations. Students will analyze the shift from nomadic societies to agricultural societies. Students will study the development of civilizations, including the areas of Mesopotamia, Egypt, India, China, Ancient Israel, Greece, and Rome. The study of these civilizations will include the impact of geography, early history, cultural development, and economic change. The geographic focus will include the study of physical and political features, economic development and resources, and migration patterns. The sixth grade will conclude with the decline and fall of the Roman Empire. This course will be the first concentrated study of world history and geography and will utilize appropriate informational texts and primary sources.
