

Hey Boys and Girls. I really miss not having you this nine weeks. I hope you are doing great and enjoying your family and not driving each other crazy. I am doing a lot of reading (hope you are, too) and was watching some movies on tv until my dog, Boo Boo ate the remote! They are mailing me a new one!

Grade 5 (Patterson) and Grade 6 (Kekel)

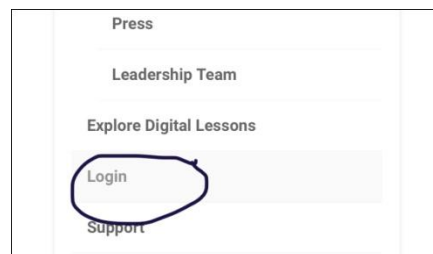

Please login to www.learning.com

In the right hand corner you should see:

Please click on three horizontal lines.

This will bring down a scroll down menu and you should see login. Click on it.

Username for 5th grade is: 27first name.last name 6th grade is: 26 first name.last name

Password is: lunch number

District is southern. This is a little tricky. Just type in southern and a drop down menu will come up and you need to click on southern-salineville.

Here is an example:

27 joseph.jones

11232

southern-salineville

(In 5th grade the following students have a different number and they are: wyatt, aurora and hannah. Your number is 26first name.last name)

Here are some common mistakes: if your name is Joe you need to type in your full name such as Joseph. Sometimes you put the the period after the number - wrong. It should be placed after the first name and don't use spaces or capitals.

5th grade and 6th grade please do the first two lessons:

5th grade will complete the following:

Lesson One - Online Safety: Communicating Online and Cyberbullying

Lesson Two – Online Communication: Sending Email Messages

6th grade will complete the following:

Lesson One – Internet Usage:Effective Search Strategies

Lesson Two – Online Safety:Dealing with Cyberbullying

You need to get 70% or higher. If not, you need to redo it until you do.

If you have questions email me anytime at:
