As we plan for a transition into a hybrid model for learning, we will work to keep you updated on all changes to schedules and procedure here at Lake View Primary. If you were unable to complete the parent survey online, please contact your child's teacher to let them know if your child will be remaining in remote learning full-time, or if they will be participating in the hybrid schedule beginning October 12th. We respect your choice and understand that you must do what is best for your family.

The student On-Site Support area will be moved to school sites starting on Monday. If your child is already registered we look forward to seeing them on October 5th. Registration information can be picked up at the front office.

We look forward to sharing your students progress with you during parent teacher conferences next week. If you haven't already, please schedule a virtual meeting with your child's teacher.

### Student of the Month

Mrs. Harris / 1st Grade  
Ethan

Ethan is a great student, I enjoy having him in class. Ethan is a great example of showing his pride. Ethan arrives everyday on time for class and has a wonderful attitude about school and is always willing to learn new things. Ethan also shows his pride by coming every morning to class with a wonderful smile on his face and telling everyone good morning especially me. Ethan is a great example to all the other students and the way that they should behave and treat others in class, especially teaching them about respect. Ethan is a very hard worker especially when he speaks very limited english he is always asking for help if he doesn't understand what I am saying or the students. Ethan is always making sure that his teacher is happy with him and his work. He uses kind words and is very helpful to other students. He participates during whole group instruction as well as small group instruction and continues to do his best by finishing every task that is given to him to 110%. He is an amazing student in my class and I enjoy every minute with him. Congratulations and keep up the great work. I am so proud of you.

# Happy Halloween!

Halloween is Saturday, October 31st

## Student Attendance

When students come to school late or leave school early they miss out on valuable instructional time, making them less successful than their peers who attend each day.

I have been teaching for 20 years.

My "why" is to educate students on the importance of physical activity and healthy eating and to foster a life long love for physical fitness.

### 3. Is there a quote or saying that you live your life by?

The quote I like to live by is "Don't just wish and dream - take action to make it happen" ~Debasish Mridha  
The best thing about teaching is getting paid to exercise with kids.

Kimberly Edgewater  
Dean of Students

### 1. How long have you been in Education?

1 year and some months.

### 2. What is your "Why"?

I enjoy being around educators. They are unlike many people I know. They are passionate about education, change, and growth for their students. Their energy, kindness, and creative ideas they share with each other and their students is an incredible experience. The values that we share and teach here at school is something I support and want to continue to support. I hope that students take what they learn at school and carry the good memories with them.

### 3. If you could take the students on a field trip to anywhere in the world, where would you take them?

The Dallas World Aquarium. I've been there once and I enjoyed looking at all the large and small living marine life. Living out in the desert, marine life isn't something we see very often. It's like exploring a new world.
