

5TH GRADE ART LESSON WEEK 6

This school year has given us lots of unexpected things! Some of them have been hard to deal with but let us not forget that this school year gave us.... BABY YODA! Baby Yoda is a character from the new Disney show Mandalorian and most people think it was created using CGI (computer generated imagery.) The artists did use some CGI but Baby Yoda is actually a puppet that cost \$5 million dollars to make! It is an animatronic puppet which means it can move by itself. This week we are drawing baby yoda.

*fun fact: this characters name is actually "The Child"

Supplies:

Paper

Pencil

Eraser

Sharpie or any black marker

Something to add color with

[Here is a link to the guided drawing video on youtube.](#) Once you finish drawing would you please email me or your homeroom teacher with a picture of the finished project.
