Mission Statement

The mission of The J.L. Bedsole Scholars Program is to enable high school graduates from Southwest Alabama with leadership ability, academic commitment and financial need to attend the Alabama College of their choice in pursuit of a Baccalaureate Degree. Their college experience will be enhanced by providing opportunities for leadership development, career

guidance, interaction with business and community leaders and networking opportunities. Community service involvement on the part of each Bedsole Scholar will enable them to become a community servant leader.

service involvement on the part of each Bedsole Scholar will enable them to become a community servant leader.

The J.L. Bedsole Scholars Program was created expressly to meet the needs of above average students with leadership potential who demonstrate financial need. Leadership is the most important criteria and academic accomplishments are strongly considered. The J.L. Bedsole Scholars Program recognizes and offers financial assistance to deserving students with recognized leadership ability who desire to pursue a post secondary education.

In addition to its scholarship grants, The J.L. Bedsole Foundation Scholars Program offers complementary programs to its students such as Leadership Training and a summer internship called the Career Preparation Program.

Scholarship Awards

Scholarship amounts are based on a student's individual need.

Scholar-

ships range between \$1,000 and a maximum of \$6,000 annually. The scholarship amount is based on unmet need and may vary from year-to-year as educational expense and financial need of the student changes. The awards are sent directly to

the college or university and are only applied to the educational expenses of tuition, books, fees, room and board. A recipient may transfer colleges and retain the award, however, a transfer may affect the amount of the award as educational costs vary from institution to institution. An award is renewed annually for 4 years or until the undergraduate degree is completed, whichever occurs first provided the recipient continues to demonstrate financial need, makes satisfactory academic progress (2.50 GPA), remains full-time and complies with all other Scholars Program requirements.
