

## **Week 4 April 13 — 17 STEM Lessons**

**Mrs. Prothro**

[curry.prothro@carrollcountyschools.com](mailto:curry.prothro@carrollcountyschools.com)

1. You will have to join my google classroom to create a Tynker account.  
My google classroom code is **lyhvp2q**.  
[Click here if you do not know how to add yourself to my google classroom.](#)
2. After joining my google classroom, go to <https://www.tynker.com/> > click sign in > click student > click sign in with google. If prompted to put in age/parent info, wait a few minutes and try to log on again. If prompted to put in a class code, please put in **98580789**.
3. Complete assigned Tynker Lessons  
These assignments should automatically show up as assigned once logged in.  
NOTE: It may take students multiple days to complete each lesson. Only spend about 40 minutes per day on Tynker Lessons. (Direct links to all STEM lessons are on google classroom if you prefer that.)

Start with introductory lesson: [Programming 100 — Welcome to Tynker](#)

4. If you have already completed introductory lesson choose your grade level link below:

### **Kindergarten— 3rd Grade**

<https://classroom.google.com/w/MjQxOTE3OTE5ODla/tc/NTc0MTQzNzg4NTJa>

### **4th — 5th Grade**

<https://classroom.google.com/w/MjQxOTE3OTE5ODla/tc/NTc0MTQzNzg5Mjda>

5. If you have already completed assigned lessons listed above please complete the weekly Tynker project assigned to you when you login.
