Book List

Part 1

by Sherri Dickinson

This is a list of over 300 books, a few videos, and some games that can be used to teach Social Skills to elementary age students. I have compiled the list over my past 8 years of teaching students with high functioning autism. I have shared this list with many professionals who have found it useful, not only for special needs students, but for instruction with all kiddos.

The list is organized by social/behavioral concepts and includes book titles and authors or in the case of video clips, the active links.

Autism – Help students who have classmates with autism understand what autism is and how they can help their classmates to become members of the social and learning groups.
