August 3, 2021

Dear Staff, Parents and/or Guardians,

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents and/or guardians of students with annual written notification or expected pesticide use on school sites. The notification will identify the active ingredient/s in each pesticide product and will include the web address <http://www.cdpr.ca.gov> for further information on pesticides and their alternatives. A list of the pesticides currently in use can be found at <https://www.cville.k12.ca.us/> under 'Maintenance'. We are not planning on using any pesticides in excess of those listed at this time.

Parents or guardians may request prior notification of individual pesticide applications at the school site. People listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below to the office or mail it to:

**Camptonville School
P.O. Box 278
Camptonville CA 95922**

If you have any questions, please contact Norman Ross at (530) 288-3277

Sincerely,

Norman Ross

Request for Individual Pesticide Application Notification for 2021-2022 School Year

I understand that, upon request, the school district is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified before each pesticide application at this school.

I would prefer to be contacted by: U.S. Mail E-mail Phone

Name of Parent/Guardian: _____
