

3rd Grade Newsletter:

Dear Parents,

We are saddened that we are losing this instructional time. We care for our students and their learning. We want to encourage you to make learning a priority over this break. We do not want to lose ground/backtrack from all the progress your children have made, and you can rest assured there are other places in our state that will continue moving forward in a variety of ways. We want our kids to have the same opportunity.

If you have internet access, the websites below are all great sites to utilize without having to get out in the public domain.

For those without access, we would encourage you to read, read, and read some more. You may have books, magazines, newspapers, cookbooks, etc. at home. Also, as of now, the public library remains open and available to the public. Apparently, you can even call to reserve your books and just do a pick-up to avoid too much contact. Also, math facts practice should be taking place EVERY day for both multiplication and division.

We truly hope you all stay safe during this time and we are able to get back together on April 6th. We will be checking e-mail and Remind accounts, so if you need to reach us, please don't hesitate.
