

Theories of Action

- IF we develop a commitment to student learning and achievement over a compliance to directives, THEN students will learn in a more flexible and adaptive environment.
- IF we develop a student centered culture of achievement, belonging and trust THEN all students will be better prepared for lifelong success.
- IF we develop administrative instructional capacity and teacher leadership opportunities, THEN a culture of professional learners will foster more collaborative efforts to support student learning.
- IF we create learning experiences that support student aspirations for life beyond school THEN students will graduate with the knowledge and skills to meet the demands of the 21st century.
