

DESOTO COUNTY SCHOOL DISTRICT
#2 CLARIFICATION – RFP #277-IAWAN-DCS-21
INTERNET & WAN

Question 1: Are you looking for internet at each site or just the Central Service Host?

Answer: Internet circuit for the entire district is to be located at Central Services. All other sites will have a fiber connection back to Central Services.

Question 2: Do you want a connection from each site to the Central Service Host in a Hub and Spoke type topology?

Answer: Currently, there are multiple hubs existing in several locations in the county with fiber running from each hub to schools nearest to the hub. Each hub has 10GB fiber pulled back to Central Services where each site is routed through a core switch.

Question 3: Will you be connecting to the Host site with a VPN connection from each site, or will we be providing this connectivity on our network?

Answer: The fiber network is a true WAN. No VPN connections are required or desired.

Question 4: Do you want 5 full copies or 5 copies of the pricing portion?

Answer: 5 full copies should be submitted
