What is POSITIIVE THINKING:

Positive thinking is a mental and emotional attitude that focuses on optimistic and positive thoughts and expects positive results.

Self-talk is the endless stream of unspoken thoughts that run through your head. These automatic thoughts can be positive or negative.

We can take those negative thoughts and practice positive self-talk.

Changing our mindset to positive thinking leads to OPTIMISM.

The best news about optimism is that it is a learnable quality. That means you can learn how to think positive by taking and adopting an optimistic mindset.

Positive affirmations are positive phrases that can be repeated over and over to teach you how to get rid of negative thoughts and encourage a positive attitude.
