SOUTHERN LOCAL ELEMENTARY ARTS NEWSLETTER

SPRING 2020

all artists

As we navigate these new, murky waters, don't forget to let your kiddos be artists. It might give them an outlet or a brain break. It is also helping them to continue to develop their art making skills.

Art usually meets once a week for 40 minutes. Students in classes KA, KC, and 4A will have art twice a week. 5C and 6A meet every day this fourth-nine weeks. Use this information to gauge how much time they should be spending on their art making.

Look for helpful links and updates on this page. No matter what the hurdle is, we can get through it if we work together.

Happy Art Making!

Miss Adams

Important Info:

All work was sent home with students with the exception of a few ceramic pieces. If you did not see your students' work, ask them why they threw it away. We will be working towards an online portfolio in the near future.

Definitions & Standards

- ◆ Craftsmanship - neatness
- ◆ Primary Colors - red, blue, and yellow. Colors that are in their purest form straight out of the tube.
- ◆ Secondary Colors - orange, green, and purple. Made by mixing two primary colors.

HELPFUL TIPS

- Ask your little artists about their work. They have great imaginations and are excellent story tellers.
- Ask them to demonstrate their knowledge of line. See how many different lines they can make.
- Ask them to demonstrate their knowledge of shape. See if they can make a monster or a robot completely made out of shapes.
- Try to color some Easter Eggs. Use a white crayon and have them draw lines. Then, have some fun experiments with color.
