

FRANCIS MARION SCHOOL EMPLOYEE OF THE WEEK JANUARY 25 – 29, 2021

Greeting everyone! My name is Gylendora Davis and I am honored and humbled that I have been selected as the teacher of the week. I have been teaching for 16 joyous years. I have a Bachelor of Science Degree in Biology, a Master of Science Degree in Biology, an Educational Specialist Degree in Teacher Leadership and a Master of Education Degree in Instructional Leadership. I currently teach AP Biology, Biology, Principles of Engineering and Introduction to Engineering. Empowering students with the knowledge and skill sets to foster critical thinking, problem solving and professional communication are the driving forces behind my methodologies. My vision is simple; every child, everyday engaged in learning experiences that will foster his or her fullest potentials. "Students do not care how much you know, until they know how much you care" (John Maxwell, 2014). I have learned so much from my students over the years and they continuously push me to be my best self everyday, no exceptions. I have a wonderful husband, three beautiful children and two precious grandchildren. I enjoy retail therapy, spending time with family and friends, and helping with community service projects
