The first order of business was a review of the Literacy event that was held on April 12th, 2018. Attendance continues to be higher during the day events than those held at night. Jodi Short shared that parents were taught strategies to do along with the bag of books that are sent home every night. The parents were very appreciative and asked lots of questions. This type of event seems to be better for our parents.

Dr. Greene shared information regarding priority standards work that the teachers are completing to be ready to share during the open house in the fall of 2018. Teachers are creating a family friendly document to share with the parents so that they can know exactly what is expected in each grade level. Teachers will use these during conferences, RTI meetings, and data team meetings.

Dr. Greene shared the progress of the digital sign. At this moment, we are requesting bids from companies to install the sign.

Dr. Greene gave an update regarding parking. Our parking lot is much safer and actually moving faster with the one lane of traffic. She stated that we are looking into additional parking. We just want to make sure that we are being financially responsible with these upgrades.
