

Rocky Hill Public Schools Lice Administrative Regulation

If a student has pediculosis (live lice), the student will be excluded from school. The student may not ride the bus. Call parent and notify of lice and necessary treatment. Student may return to school after the first treatment. The school nurse will inspect for live lice for reentry to school. If there are persistent live lice repeat treatment per product directions or per physician recommendations. The student will be rechecked in 10-14 days by the school nurse. If a student has only nits, the student may remain in school in classroom. Provide parent/guardian with information about lice and nit removal.
