This modification is intended to increase the effectiveness of teachers and students. The modified schedule will allow students to receive more time in classes. The extra time will be utilized for one on one instruction, PLCs, Focus Faculty Meetings, Parent Conferences, etc. Teachers will have an adequate amount of time to plan elaborate lessons that will increase student achievement. Fridays will be utilized for assessments. This schedule will also make it easier when it is time to transition to the Hybrid Pathway. The following three charts show the times and class periods. Classes will extend from fifty minutes to an hour and twenty minutes.

During the social/emotional block, the high school counselor, the district's behavioral specialist, as well as the behavioral interventionist will assist students with how to cope with virtual learning, social challenges, and other challenges that accompany virtual learning.

The advisory block will be for informing students about graduation requirements, ACT information, scholarship opportunities, etc. The counselor along with the administration will conference with students during this time.
