## Are you interested in having your child receive the vaccine?

Everyone has been affected by this pandemic. African Americans, other people of color, and high-risk groups are disproportionately affected by COVID-19. This opportunity is open to all. Physicians and researchers at St. Louis Children's Hospital are looking for parents interested in having their children receive the vaccine and be part of upcoming COVID-19 vaccine clinical trials. **We are looking for children younger than 18 years of age.**

**For more info, complete our brief survey.**
