It is our privilege this year to be part of the team that will teach your child. Previously our school had two teachers who served the students in Reading and Mathematics. However, this year we will have a three-member team to help support the needs of your child in the same content areas as before. Our high expectations matched with your parental support and your child's effort will help us have an excellent year. As a team, our children's success is inevitable!

Best Regards,
