NOTICE OF TESTING FOR LEAD IN WATER

26A:12 (Safe Drinking Water) requires all New Jersey schools to test the safety of all water consumption outlets. Pursuant to these requirements, The Ventnor City School District will be testing for lead in the water on December 3, 2016. A sample water test was completed with satisfactory results on June 6, 2016 and is posted on our website. The results from our required test of all water outlets scheduled for December 3, 2016 will be posted as soon as they are available.

Terri Nowotny
Business Administrator/Board Secretary
