

Learning Plan May 25-29

	Monday	Tuesday	Wednesday	Thursday	Friday
Phonics/ Reading	Memorial Day	<p>Play sight word memory game.</p> <p>Watch and read along And Then Comes Summer</p>	<p>Play sight word tic tac toe.</p> <p>Watch and read along The Night Before Summer Vacation</p>	<p>Play sight word bingo.</p> <p>Watch and read along Last Day, Hooray!</p>	First day of summer break!
Writing/ Grammar	Memorial Day	<p>Write your own story and illustrate. Mrs. Kellison was going to have author, Kevin McCloskey, visit our school. You can check out his website heymccloskey.com</p> <p>If you need help getting ideas for your story use the story cubes resource and use the story writing paper for your final copy of your story.</p> <p>Make today your draft day for your story.</p>	<p>Proofread and edit your draft. Make sure your story has a clear beginning, middle, and end. Check for complete sentences, capitalization, punctuation, and spelling. Make sure your illustrations show what is happening in the story.</p>	<p>Write your final copy of your story. Create a cover for your story. Make sure you put your title and author/illustrator name (your name) on your cover.</p> <p>Feel free to video yourself reading your story and email your teacher your video.</p>	First day of summer break!
Mathematics	Memorial Day	<p>Create your own math review board game. Use the board game template. Either write math problems to solve on the board, or write down your questions on index cards or cut up paper as task cards to complete on your turn. Review telling time, < and >, +, -, plane and solid figures, measurement, skip counting, place value.</p>	Play your math board game.	Play your math board game.	First day of summer break!

Science/ Social Studies	Memorial Day	<p>Try making your own water slide. Use cardboard, foil, pipe cleaners, water, a bowl to collect water at the bottom of the slide, beads or marbles to slide down, and any other items you may need to build your slide.</p> <p>Watch and try Building a Water Slide</p>	<p>Try making s'mores in your solar powered oven. Watch and make Solar Powered Oven</p> <p>All you will need is a pizza box, foil, tape, plastic, black construction paper, and scissors to make the oven.</p>	<p>Try making your own bubble wands. You will need pipe cleaners and sticks. Use your wands with premade bubble solution or dish soap and water.</p> <p>Watch and try Homemade Bubble Wands</p>	First day of summer break!
