# A MESSAGE FROM THE DIRECTOR

This report of activities for 2017-2018 was prepared by the staff to provide insight into each of the programs provided by SWAEC for our members and partners. School district personnel, school board members, area legislators, and State Department of Education personnel will be provided information on services provided to our member schools during fiscal year 2017.

The Southwest Arkansas Education Service Cooperative (SWAEC) is made up of nine school districts in rural Southwest Arkansas. The counties we serve include Hempstead, Lafayette, Miller, and Nevada. We serve approximately 12,000 students and 1,000 public school teachers and administrators. The Co-op offices are located on the campus of the University of Arkansas Hope-Texarkana (UAHT). Our current facility opened in August 2010 through a partnership with SWAEC, UAHT, the City of Hope and the US Department of Agriculture, Rural Development Program.

SWAEC has worked to form partnerships with the Arkansas Department of Education and higher education for the purpose of benefiting our districts. Some of our services include: preschool programs for 3-5 year olds; special education services including LEA supervisor, vision and behavior support; content specialist in math, literacy, science, and technology; career and technical assistance; gifted/talented services; bulk purchasing and printing services; professional development; and early childhood behavior assistance. We are actively involved with Henderson State University, Southern Arkansas University, and UAHT. We also work with several community coalitions, such as United Way, Kiwanis and Southwest AR Arts Council, to improve education for our children in Southwest Arkansas.

We are pleased to share this annual report. The following reports and program summaries will provide insight to the vast array of programs and services provided to our member schools. We look forward to our continued partnership with our member districts as we serve students and educators in the evolving work of Pre K-12 education.

#### VI. ANECDOTAL REPORTS

Please attach three or four descriptions of activities which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or the descriptions may be written by local schools served by the co-op. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

\* We had a number of teachers in the cooperative area pursuing National Board Certification. We hosted a support site that meet once a month to help support these educators in the National Board process.

\* As we serve a primarily rural population, most of the districts in SWAEC do not have grant writers. In an effort to support additional funds coming to the districts, the cooperative has partnered with CESA 6, a service agency in WI, to offer grant services. On a monthly basis, SWAEC sends out possible grants that our districts are eligible to receive. If a grant interests the districts, CESA 6 helps them write it. Also, if one of our districts has a particular item they need funded, SWAEC will contact CESA 6 and they research the opportunities in that field.

\* SWAEC has worked with the AR School Board Association to provide training specifically for the boards of SWAEC member districts as well as regional board training for districts in the southern part of the state. These meetings allow us to provide more targeted service for the needs of our area boards and allows them to save on travel as they do not have to go to Little Rock for their required hours.

#### VII. EMPLOYMENT POLICIES AND PRACTICES

# <u>Goal:</u>

The goal of Career and Technical Education is to carry out the guidelines of the 2006 Perkins Act. This federal funded program is for secondary and postsecondary career education programs, increased accountability and to emphasize student achievement, strengthening opportunities for students. The Perkins funding is overseen by the Arkansas Department of Career & Technical. The goal is to better prepare students for the workforce/postsecondary/, and military. Based on data gathered from the consortia, a target for the eight Perkins indicators is provided to achieve. These include proficiency on literacy and geometry exams, technical skill attainment (CTE EOC Exams/Industry Certifications), high school course completion & graduation, placement, and nontraditional participation & completion.

# **Program Summary:**

The coordinator for the Southwest Arkansas Education Cooperative Perkins Consortium is required to write a five year plan and submit it to the state department. The coordinator also writes a annual Perkins application determining how to distribute/spend the funding for our area schools on the indicator projects approved by the Arkansas Department of Career & Technical Education. Start-up funds, Completers Reports, Placement Reports, technical assistance, and professional development are also planned and provided by this office.

# Major Highlights of the Year:

Major Highlights of the Year: Through the writing of new program application, \$16,725 was granted for Fouke High to start an Education and Training program in the 2018-2019 school year. Paul Vitale kicked off softskill training through Peak U for studnets from all over the co-op area at a meeting in Hempstead Hall. 150 students participated in non-traditional activities such as the Girls in STEM event at SAU.

# **Participating Districts:**

# Personnel:

John Ashworth, Virtual Arkansas Director, BS, MSE Junior Stormes, Team Digital Coordinator Michael Lar, Virtual Arkansas Director of Operations, BS, MBA, ED.D, ABD Jason Bohler, Virtual Arkansas Director of Academics, BA, MAT Lisa Russell, Team Digital Member, BSE Team Digital Members (3) assigned to other cooperative areas

# Goals:

The mission of the digital learning program is to provide equitable, efficient, and effective learning opportunities for students and educators. These opportunities are offered utilizing digital solutions to extend learning where local access may not exist. The Arkansas Education Service Cooperatives support and provide resources to assist Virtual Arkansas and Team Digital.

# **Program Summary:**

Virtual Arkansas is an Arkansas-based program that is implemented through a partnership between the Arkansas Department of Education and the Arkansas Education Service Cooperatives. We provide an array of quality digital courses to public school students in Arkansas and utilize Arkansas licensed instructors. Virtual Arkansas served 221 districts and processed over 50,000 student enrollments during the 2017 – 2018 academic year. We are not an online high school or a diploma-granting institution but are a resource for supplementing education for public school students. Students enrolled in a public school may be enrolled in Virtual Arkansas courses by the local school administration.

Virtual Arkansas is committed to developing the full potential of Arkansas students by providing access to quality online courses that incorporate interactive instruction to prepare students to be successful in their college and career educational pursuits and in the global economy. School districts "Power Up with Virtual Arkansas" for a variety of reasons. A district may face a teacher shortage, want to provide additional course scheduling opportunities to their students, offer their students access to a digitally enriched curriculum, or broaden their course offerings beyond those mandated by the Standards for Accreditation of Arkansas Public Schools. Finally, districts that partner with Virtual Arkansas will be satisfying the requirements of Act 1280, the Digital Learning Act of 2013. www.virtualarkansas.org

In August 2017, Virtual Arkansas partnered with the Division of Youth Services (DYS) to deliver a consistent rigorous curriculum based on the Arkansas standards and frameworks, taught by Arkansas licensed teachers, to the students housed at five of the DYS campuses. This partnership has resulted in these students being able to transfer their grades and credits earned back to their home campus. Students were also provided intensive intervention sessions to improve their academic skills and comprehension of the content.

# <u>Team Digital:</u>

Team Digital works within a state team to support the planning, implementation, and evaluation of digital learning environments in Arkansas. Team Digital has expertise in emerging online teaching and learning practices that allow for active learning; effective content authoring and lesson design methods that best serve digital education; and strategies in helping educators transform system-centered practices into student-centered practices. Team Digital interacts with media production workgroups, learning management system consultants, technology solution experts, pedagogical experts, curriculum design experts, and educators around the globe. Team Digital also provides operational support to state projects, Arkansas Cooperatives, and public schools in the growing interest in blended and online learning. www.teamdigital.org

# Arkansas Connect2Digital:

Arkansas Connect2Digital is a digital platform where Arkansas educational agencies house digital resources and implement blended professional development. It supports 20,000 users and is hosted and maintained by Team Digital as well as partnering with the Education Service Cooperatives.

# **Program Summary:**

The 3-5 Early Childhood Program takes responsibility for coordinating efforts within the region to develop and establish programs providing special education and related services to identified preschool aged children (3-5 years) with developmental delays. Collaborates in planning with the LEA's and superintendents in their districts for implementing activities to ensure the identification of eligible children. Provides services to such children in accordance with individual educational plans developed for children with the least restrictive environment being the primary concern. Early Childhood Behavior services are available through the cooperative. Behavior referral procedures are in place at the Southwest Arkansas Education Cooperative though the Arkansas Department of Education ECSpEC website. The Behavior Interventionist has a number of specific duties listed below:

- · Works with parents and agencies when necessary
- · Writing behavior plans, performing observations, assessments and referrals
- Faciliate manifestation determination conferences
- Collaborate with mental health providers
- Conduct parent/teacher consultations
- Assist with the management of due process, crisis intervention, identification, etc.
- Assist with the management process related to autistic children
- Conduct in-service and staff training

For the 2017-2018 year, the Southwest Arkansas Education Cooperative Childhood 3-5 Program has the following data:

# December 1 Count: 291

- Screened -52 passed developmental screen

# <u>Goal:</u>

The goal is to provide a resource for assessment and identification of children in 3-5 year old programs who meet criteria for the state and federal definition of autism spectrum disorder and to assist in the development of educational and behavioral strategies that will offer students a greater opportunity for success in the classroom and community environment.

# **Program Summary:**

The Early Childhood Autism Team (A Team) consists of 2 speech language pathologists, 2 special education instructors and a behavior specialist. The use of a multidisciplinary approach in the educational diagnosis of autism provides additional validity to the eligibility determination process and provides information from an extended range of perspectives. Determining the qualification of a student under the definition of autism requires information relating to medical, psychological, educational and social characteristics of the student, as well as, information regarding the school environment. Students are referred for assessment by parents, classroom teachers, and physicians. A screening instrument, based on the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-V), is completed by the classroom teacher, parent, and at least one member of the team. If the child meets criteria from the screening, specialized evaluation is warranted and scheduled. The team assesses students referred for specialized evaluation, interprets available data and subjective information and uses professional knowledge and judgment to determine eligibility. This specialized assessment uses the Battelle Developmental Inventory II and the Vineland Adaptive Behavior Scales to assess developmental and adaptive skills. The Transdisciplinary Play-Based Assessment-2 uses play to assess cognition, sensorimotor, communication, and social emotional skills. The Preschool Language Scale assesses both receptive and expressive language and the family completes an extensive family and social history. The Autism Diagnostic Observation Schedule-2 (ADOS-2) is used to assess the number and severity of autism related signs and symptoms. Team members perform extensive observation of the child in the natural setting and classroom environment. Additional scales and assessments are given depending upon individual needs. All assessments are recorded for further reference and a typical specialized assessment takes approximately 12 hours per student. The team also provides support during the evaluation programming conference by presenting and explaining all evaluation results.

Data for 2017-2018: 4 children were referred and assessed. Of the four, three children met the criteria for autism spectrum disorder.

#### <u>Goal:</u>

Our goal, through these programs, is to provide quality professional development training, primarily in the thirteen critical areas, as outlined by the Arkansas Department of Education. The focus is to assist area schools in meeting the needs of their individual School Improvement Plans and to improve student achievement. These training sessions are funded through our Professional Development Consortium (PDC), in which 8 out of 9 districts participate. Participating districts contribute \$100 per certified staff member to the consortium. This funding helps support training sessions that cover a variety of related topics for which teachers and/or administrators have expressed a need. These funds are also instrumental in supporting several state initiatives, such as Common Core State Standards and Teacher Evaluation. Districts not participating pay a per session fee.

#### **Program Summary:**

The Teacher Center Coordinator has a primary responsibility for planning and carrying out the Professional Development Program for member districts. The professional development programs are, in part, identified by the Teacher Center Committee as a priority among member districts. A wide variety of workshops and seminars are provided for teachers and administrators throughout the year utilizing the expertise of regional, state and national consultants to train school personnel to help them develop both professionally and personally. Collaboration with the ADE and other agencies exists to provide professional development for specific groups such as: Special Education Teachers, Limited English Proficiency Teachers, Federal Coordinators, Gifted and Talented Teachers, Food Services, and Migrant Educators. Technology is supported through a variety of training sessions here at the Co-op and at the school sites.

## Personnel:

Name	Position	<u>Degree</u>
Monica Morris	Teacher Center Coordinator	MSE
Monica Holston	Teacher Center Clerk	Associates
Taylor Jester	Teacher Center Clerk	Associates

#### <u>Goal:</u>

The purpose of the Teacher Center is to provide services to our schools in three basic areas: staff development, curriculum development assistance and educational materials. We meet those goals in a number of ways in both the Teacher Center and other areas of the Co-op. The Teacher Center Advisory Committee works closely with the Teacher Center staff and the Co-op Board of Directors. This open channel of communication assures that we continue to understand and meet the need of educators we serve.

#### **Program Summary:**

The SWAEC Teacher Center provides a place for teachers, paraprofessionals, and administrators of all member districts to work on instructional materials, develop curriculum, and obtain instructional and media materials to meet the needs of their classroom. The instructional materials have been developed to coordinate with the Arkansas Standards. Instructional resources are available for teachers to use in the classroom. The primary focus of the instructional material is reading, math and language arts; however we do have materials available for other subject areas. Technical assistance is available for educators from laminating and supplies to curriculum designed to meet a specific need. One of the most popular services of the Teacher Center is the Ellison lettering machines and the numerous dies available for use. During the school year, the SWAEC makes Ellison cuts available to school through six Ellison kits that travel to different buildings. Additionally, the Teacher Center provides teachers and administrators the use of a banner/poster maker, a binding machine, two laminators and copiers. Teachers use the Teacher Center on a regular basis for help and assistance through personal visits, phone calls, and school visits through the delivery system. The center serves preschools and daycares, in addition to, our member school districts. There are approximately 35 preschools and day cares that use the SWAEC Teacher Center services on a regular basis. Students from UAHT, Texas A&M-Texarkana and Henderson regularly use the SWAEC Teacher Center services. Private schools in the SWAEC service area also use the Teacher Center.

Southwest Arkansas Education Cooperative 2017-2018

pecial Projects

# SPECIAL PROJECTS AND PROGRAMS

Detailed below are special projects or programs in which state funding provided services regionally or statewide, giving this cooperative an opportunity to participate.

FUNDING SOURCE: Arkansas Department of Education RESTRICTED

#### Program Name: CGI-Cognitively Guided Instruction

Competitive Grant No

Cognitively Guided Instruction (CGI) is a teacher professional development program that has teachers exploring a framework for how elementary school children learn concepts of number operations and early algebra. This knowledge is used to drive instruction. Years 2 & 3 of training builds upon the previous year's training—resulting in a true, long-term sustained professional development program. What teachers learn in a CGI institute enhances how they implement any curriculum or resource materials into their daily classroom instruction.

#### Program Name: Teacher Excellence Support System (TESS)

Competitive Grant No

Goals and Description: The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Southwest Arkansas Education Cooperative held the three hours Law and Process training(s). The Arkansas Department of Education provided training at each co-op for districts that opted in for premium services. Southwest Arkansas Education Cooperative scheduled additional sessions to extend the learning and support administrators and teachers as they continue to implement TESS as the teacher evaluation system in the 2016-17 school year.

## **Program Name: Arkansas Leadership Excellence and Development System (LEADS)**

Competitive Grant No

The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being piloted). Trainings for the LEADS program throughout the 2015-2016 school year included work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of Bloomboard for evaluation and artifacts, and other support, as needed in individual cooperatives.

#### Program Name: Literacy Design Collaborative/Mathematics Design Collaborative (LDC/MDC)

Competitive Grant: No

The LDC/MDC is an on-going professional development process which consists of tasks aligned to the Common Core State Standards that target those skills needed in reading, writing, and mathematics. Formative assessment is used as a tool for monitoring what students are learning and identifying misunderstanding or skill weaknesses in students. These tasks work together to provide robust learning opportunities for students that are evaluated with a scoring rubric that helps educators across our state and nation calibrate high expectations. The LDC/MDC work is implemented in literacy, social studies/history, mathematics, science and career education classes for students in grades 9 and 10.

# Program Name: ACT Aspire

Competitive Grant No

Goals and Description:

Southwest Arkansas Education Cooperative technology coordinator and staff have provided support to district testing and technology personnel as preparations were made for the initial implementation of ACT Aspire in the spring of 2016. Support included onsite visits within districts to aid in preparing technology infrastructure, providing multiple training opportunities for ACT Aspire updates, and hosting ACT Aspire workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinator provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

The Southwest Arkansas Education Cooperative also provided support to classroom teachers and instructional leaders to ensure Arkansas content standards were taught in a manner that would prepare students for the ACT Aspire. In addition to ADE presenters, cooperative content specialists provided face-to-face trainings on ACT Aspire resources and their use in strengthening the classroom teachers' understanding of assessment requirements for students. Trainings will continue during the summer of 2017 and the upcoming school year.
