

## Learn the Signs. Act Early.

**T**he journey of your child's early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child's doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

## YOU KNOW YOUR CHILD BEST.

If you are concerned about your child's development, talk to your child's doctor.

If you or the doctor is still concerned, ask the doctor for a referral to a specialist and call **800-654-7726** to learn how to get connected with your state's early childhood system to get the help your child might need.

## DON'T WAIT.

Acting early can make a real difference!

# Your Child's Early Development is a Journey

Check off the milestones your child has reached and share your child's progress with the doctor at every visit.

These are just a few of many important milestones to look for. For more complete checklists by age visit [www.cdc.gov/ActEarly](http://www.cdc.gov/ActEarly).
