Greetings Lanett City Schools Parents!

We will like to provide an update on the device distribution to parents that have requested the use of a Lanett City Schools (LCS) device for their student to use with virtual or traditional/remote learning.

Shortly after the close of last school year, LCS purchased an abundance of additional Chromebooks with the intent to supply each student and teacher with a device to be used in the facilitation of remote learning if/when necessary. We ordered early to ensure the arrival of the devices before the start of the new school year. Due to unforeseen disruptions in the supply chain, our receipt of new devices will be delayed for an extended period of time. Please see the article link below for more information on the delay.

Unfortunately, we have been forced to alter our original plan of providing one device per request. Based on the responses from the LCS Student Learning Options Form, requests have already exceeded the number of devices that we have on hand. In an effort to make sure every child we serve has the necessary tools for education, we ask you to reconsider your original response. If you already have a device or devices at home and do not need additional devices, please contact your child's school as soon as possible to alter your original response. This will greatly assist the district in meeting the needs of all students.

At this time, LCS is able to offer one device per household. When our shipment arrives, we can provide additional distribution dates for those students/parents requesting additional devices.
