

Call Out for October 28, 2020

This is Richard Dennis, superintendent of Elmore County Public Schools. After consulting with the Elmore County EMA and assessing the risk factors, Elmore County Schools will be closed on Thursday October 29. The tropical storm front has picked up speed and will be moving quickly through the state. It is expected to impact Elmore County with heavy rains and high winds in the early morning hours and potentially cause a loss of power and unsafe travel conditions for the morning.

A determination on any scheduled extra-curricular activities for Thursday afternoon will be made tomorrow based on the readiness of each school and will be communicated by the school principal.

Please take precautions as the storm front passes through our area tomorrow morning.

Thank you and have a safe evening.

Every Student Empowered, Every Student Succeeds.

Richard Dennis
