

Career Exploration Syllabus

Mrs. Lee Pipkin

Room 6

lee.pipkin@chestercountyschools.org

In Career Exploration, students will take a look at various career options and how their personal interests, aptitudes, and values fit into the overall picture of choosing a fitting career. The students will have an opportunity to see the career paths offered by our high school, and talk to the instructors to gain a better understanding as to how they can take their education and transition into a career opportunity. Students will also take a look at goal-setting and the decision making process in order to better understand how decisions we make today can affect our futures. This course is rotated with other exploratory classes every 4-weeks

- Personal interests, aptitudes, values
- Career Exploration
- Tours of CTE programs offered @ Chester County High School
- Goal Setting - How to follow up after setting your SMART goals
- Decision Making - The 6 Most Important Decisions You Will Ever Make

Career Exploration is also a PLT (Personal Learning Time) for our 8th graders. Mini lessons will be taught along with an opportunity for the students to work together to seek help and understanding in other subjects.
