

## ANNUAL BUDGET

The annual budget is the financial plan for the operation of Centennial BOCES. It provides the framework for both expenditures and revenues for the year and future years and translates into financial terms the programs and objectives of Centennial BOCES.

### **Budget Process**

In accordance with state law, the budget shall be presented in a summary format that is understandable by any layperson. The budget format shall itemize expenditures of Centennial BOCES by fund. It shall describe the expenditure and show the amount budgeted for the current fiscal year and the amount budgeted for the ensuing fiscal year. When budgeting for any enterprise funds, Centennial BOCES shall use the full accrual basis of accounting.

The budget shall include a uniform summary sheet for each fund administered by Centennial BOCES that details the beginning fund balance and anticipated ending fund balance for the budget year; the anticipated fund revenues for the budget year; the anticipated transfers and allocations that will occur to and from the fund during the budget year; the anticipated expenditures that will be made from the fund during the budget year; and the amount of reserves in the fund.

The Board of Directors assigns to the executive director overall responsibility for annual budget preparation, budget presentation and budget administration. As part of the executive director's budget responsibility, the executive director shall cause to be prepared a budget preparation calendar that shall ensure that all deadlines established by law for budget presentation, hearing and adoption are met by Centennial BOCES. The executive director shall have authority to delegate portions of his or her Centennial BOCES budget responsibility to the assistant executive director of Centennial BOCES.

The budget prepared and presented by the executive director shall be consistent with the Board's budget priorities established in policy DBD.

### **Operating Reserve**

Maintaining a fiscal year-end fund balance is a beneficial and sound financial management practice. The Board assigns to the executive director or designee the responsibility of accumulating and maintaining a general fund balance as an operating reserve in an amount determined by the Superintendents Advisory Council and the Board of Directors.

The operating reserve is intended to serve as a "rainy day" fund and will be used only for an unexpected loss of revenue or an extraordinary expenditure. Expenditures from this reserve shall be reported to the Board.

If any part of the operating reserve is used in any fiscal year to cover an unexpected loss of revenue or an extraordinary expenditure, funds will be reallocated to restore the year-end fund balance in the operating reserve before any other budget allocations in the subsequent fiscal year, unless the Board approves otherwise.
