Alternate Achievement Standards: Student Enrichment Learning Packets

Attached is a work packet for your child. This packet contains enrichment activities for both Reading (English/ Language Arts) and Math skills. The activities have been compiled to support repetitive practice during the extended school closure due to COVID-19.

Our goal is to provide you with resources through the alternate achievement standards (AAS) enrichment practice packets. This is to support our students learning and practice during the days they are at home due to the extended school closure.

Directions:

- Parents may read all information, directions, and materials aloud to their child.
- Please read aloud each story, passage, and/ or sentences throughout the enclosed packet to your child.
- All answer choices may also be read aloud to your child.
- The packets are not required, but strongly encouraged in order to help students retain information and continue learning during school closure.
- The packets will not be required to be turned back in and they will not be graded.

Thank you so much for your continued support.

We greatly appreciate all you do to help and guide your child.

Sincerely,

The Division of Special Services

Mobile County Public School System
