

**Lewistown CUSD #97 Online Learning Plan
Fall 2020**

Families selecting the remote learning option at registration will follow the online instruction model:

- Teachers will record and upload videos to Google Classroom presenting the same lesson students learned in school that day.
- Online learners will need to watch the videos and complete the assignments daily.
- Teachers will be available from 2:00-3:30 each day to meet virtually with students (using Google Meets) to address any issues and/or concerns with the material.
- Teacher contact must be made daily for attendance purposes.

Opportunities will be available for interested parents and their children to learn how to use the online learning resources

Due to the pandemic we need to remain flexible as situations may change.
