

## 4TH GRADE ART LESSON WEEK 2

In this lesson you will be learning how to draw a marble. A marble is a sphere and a sphere is 3D so it can get tricky! You will learn to create a light and dark side of the marble by adding shadows and highlights. You will also look at a photo realistic artist named Glennray Tutor!

### Supplies:

Pencil

2 sheets of paper

Scissors

Glue

White paint (optional)

Watercolor paint (optional)

Chalk pastel (optional)

Crayons or markers would work too!

[Here](#) is the video for the lesson. This video was also made by Cassie Stephens who is an art teacher in Tennessee. She uses watercolor paint but if you don't have any you could use markers and bleed them with water on a paintbrush. She also uses chalk pastel to create the shadow but you can use whatever you have at home if you can be creative!

### Optional:

-Draw other forms in a photorealistic way! Maybe a coffee mug? Or a Pringles can!

Glennray Tutor artwork.
